**Student Doctors at the All India Institute of Medical Sciences** Notion Press

By traveling to different parts of the world, this book provides a multidisciplinary perspective on the current state of adolescent education and demonstrates how education

systems are formed by and closely tied to culture. After establishing a theoretical background, the book delves into the particulars of adolescent education and its associated challenges in six countries (India, Kenya, Germany, Brazil, Japan, and Denmark). In tandem with the discussion of institutions, the stories of those who are all too often underserved or left behind are told. Despite the diversity of each education system, the investigation reveals several unifying themes

that transcend the specific contexts. The lessons from each example are woven together to demonstrate how the individualized needs of students can best be met, in a vision for the future of educating adolescents." **Confronting Inequalities R.S.MULEY** **Women in Science and Technology: Confronting Inequalities** comprehensively explores women's status in the Science and Technology (S&T) domain by rigorously analysing and interpreting extensive recent information on major areas such as engineering, medicine, physical sciences, biosciences and mathematics. The book forcefully demonstrates that gender-based differences and expectations play the determining role in limiting

women's participation in S&T. These exist in various forms, from making subject choices in school and opting for specific disciplines in college to embracing specific career avenues such as scientific research. This book shows how the construction of gendered identities is perpetuated through a masculine culture in the informal environment of elite educational institutes and in major S&T workplaces such as academia and research laboratories, which serve together to exclude women from peer groups and opportunities for advancement. The book makes substantive recommendations for policy measures on college admissions, improvement of institutional and organizational environments, and recruitment and capacity building for women in S&T. It calls for substantially reducing the myriad societal and familial barriers through cooperation and understanding.

*Jk Psc Quick Review for Medical Officers (Neet Edition): A Must Have Book for NEET, DENTAL, FMGE, AIIMS, PGI, MD/MS Entrance Exam* Disha Publications

Success Mantras of NEET/ JEE Toppers with Video Support Results of a survey said that the difference between Topper & an Average student is not much in terms of Subject knowledge, intelligence or hard work, but the major difference is in terms of study techniques and approach towards exam. Hard work should bring success but only when coupled with efficient and appropriate study techniques. The book is based on

success story of hundreds of toppers of different exams. The book/seminar recapitulates and reinforces the basic study techniques adopted by toppers and helps in mastering skills & techniques to learn more in less time and with less stress. Some of the topics covered • How to master Fundamentals • How to sharpen Problem solving skills • Improving your Output (Net Score) • Tips and techniques on “ How to attempt a Question paper? ” And many more ideas/ tips to improve your score and maximise your output.

All the views written in this book are my personal view which I have experienced over the long period of time. All the view given in this book may not be useful for every student. I am writing this book because I saw the student struggling to clear competitive entrance exam for DM/Mch courses in various Indian medical college. So, kindly make note of these things before reading them or purchasing the book. I decided to write this book so I can guide the student, regarding how to prepare for the exam, so they can easily clear the exam .

TOPPERS' STUDY HACKS Disha Publications

It was during the winter of year 2019

---

when Covid struck. In a matter of days, exhilarating and inspiring voyage in the the virus stealthily spread at an alarming, breakneck speed all over the world, leading to devastating loss of lives and crippling of economies. Like all biological entities, it had to have a purpose. To search for that purpose, Prof. Sujata Sharma of All India Institute of Medical Sciences, New Delhi undertakes a memorable expedition on her imaginary spaceship into the solar system. She encounters all the nine heavenly bodies of 'Navagraha' and their corresponding Warriors in White in AIIMS and other leading hospitals of India. Using a heady combination of molecular medicine, astronomy and Vedic astrology, she understands the nuances and eccentricities of the virus. At a celestial level, the expedition begins from the Sun, Prof Randeep Guleria and progresses to other planets and warriors, eventually spanning the entire galaxy. At a terrestrial level, the journey starts from New Delhi to Chandigarh via Bengaluru, zipping through Mumbai and Varanasi, onwards to Noida and finally ending back in Delhi. This
