Air Conditioning Service Manual Truck

High performance cabin cooling for trucks.

Combining high performance with easy installation and usage, the CoolAir rooftop air conditioners for trucks offer the perfect solution for in-cabin truck temperature control. They feature excellent cooling capabilities, energy efficiency and quiet operation, and there are versions to fit most cabin types, including one specifically for trucks that

cannot accommodate a roof-mounted unit.

Step 1. Locate the air conditioning system in your truck's engine bay. The condenser will be connected to metal tubing that routes the air into the truck's interior. Follow

the tubing until you locate the refrigerant fill nipples.
