Crown Victoria Air Ride Service | Know Your Parts

The air ride suspension on a Mercury Grand Marquis gives the vehicle a remarkably smooth ride. Standard shocks are enhanced with air bags, similar to the style used in large tractor trailers. The system is controlled by a computer, which turns an air compressor on and off to maximize rider comfort.

2003-2004 Lincoln Navigator And Ford Expedition Module ...

ok thats what I thought, the air suspension light is controlled by the module, since the vehicle no longer has any air suspension in it the module is now full of diagnostic trouble codes because of all the missing parts, you can try unplugging the air suspension module located under the dash on the left hand side and see if the light goes out, you best bet may be to remove the bulb from the instrument cluster if that doesnt work.

Air Suspension Module 2003 Ford

Resetting the air suspension on a 2003 Lincoln Navigator is a simple maintenance procedure. The air suspension should be disengage prior to lifting the Navigator and then reengaged after lowering the vehicle and starting the engine. However, it is worth noting that the 2003 Navigator has a history of bad sensors on each wheel.

How to Reset the Suspension in a 2003 Lincoln Navigator ...

From 1997 to 2011, the Crown Victoria (more commonly known as the Crown Vic) had the same optional air ride system on the surface. From the outside, the only differences that could be seen were improved air bags in 2003.
