The Airbus A320 family consists of short- to medium-range, narrow-body, commercial passenger jet airliners manufactured by Airbus. The family includes the A318, A319, A320 and A321, and the ACJ business jet. The aircraft family can accommodate up to 220 passengers and has a range of 3,100 to 12,000 km (1,700 to 6,500 nmi), depending on model.

Airbus' open approach to
collaboration and partnership has
been part of its philosophy since
the company was created over 40
years ago. In designing new
aircraft, Airbus always seeks the
input of customers and those who
handle the jetliners on a day-to-
day basis.

Airbus Customer Services
Airbus sets the standard for customer support and services, with regular updates on its activities – plus related industry news – provided by two of the company's specialised publications: FAST Magazine and Safety first.

Computer Airbus A320 Aircraft Maintenance Manual / hsm1 ...

For the operation of the in-service fleet, Airbus offers a variety of planning services to enhance material availability for maintenance events. Airbus

ensures that, for both scheduled and unscheduled maintenance, customers can get all the material they need without jeopardising the planned aircraft ground-time.

Airbus A319/320/321 Notes

Airbus provides customers with complete and accurate technical information to ensure the safe and cost-effective operation of their rotorcraft. The primary forms of technical data are a flight manual, airworthiness manuals, maintenance manuals, and procurement and identification manuals

(parts and tools catalogue).
Publications - Customer Services - Airbus

Airbus offers a full coverage of approved/ type training courses for certifying maintenance staff subject to Airworthiness Authorities regulation. We offer a specific training for a better integration to the type training and a recurrent training to refresh the knowledge of aircraft system and maintenance basic technologies:
