Engineers aim to improve safety features and minimise fuel consumption and pollution. In fact, aeronautical engineering has an increasing focus on the environmental impact of aircraft. Engineers may need to use aircraft computer-aided-design (CAD) software such as DOORS and NASTRAN, so there is often a call for software specialists and IT skills.

Aircraft Maintenance Engineer 's Logbook

Pilots Vs Maintenance Engineers After every flight, pilots fill out a form, called a " gripe sheet " which tells mechanics about problems with the aircraft. The mechanics correct the problems; document their repairs on the form, and then pilots review the gripe sheets before the next flight.
