MacBook For Dummies Peachpit Press

Apple Inc. dates to early 1976 when high school friends acted on the concept of live colored graphics enhanced by technology. Since its launch, the company has experienced major growth and expansion; offering a wide range of electronic devices such as smartphones, computers and tablets. To enhance the use of each of its electronic devices, Apple Inc. has now entered the market for the creation of a plethora of accessories. The accessory line continues to grow with the release of new devices; providing users with coverage, diversity and personalization capabilities for each. Apple accessories are available in many types, sizes and colors. Users are now able to procure earphones such as the new wireless AirPods and a wide selection of watch bands; which include the Nike sports band, the Woven Nylon band, the Classic Buckle and the new Sport Loop band. Apple has also introduced leather and silicone cases for all smartphones in its brand as well as for its tablets.
