Construction
The 14th Edition of AISC's
Steel Construction Manual
will be available in the
summer of 2011. The new
manual includes and is based
on the 2010 AISC
Specification for Structural
Steel Buildings. Because of

the new specification, as well
as some other modifications
to the connection design
procedures, the 14th Ed.

Edition AISC Steel Construction Manual. The Companion consists of design examples in Parts I, II and III. The design examples provide coverage of all applicable limit states, whether or not a particular limit state controls the design of the member or connection. In **Specification for Structural Steel**

Buildings - AISC

The creation of the Beginner's Guide to the Steel Construction Manual (BGSCM) was prompted by the major rewrite of the AISC specification that appeared in the 13th edition of the Steel Construction Manual (SCM). When textbooks were slow to respond to the change, I started thinking that a web based approach would be more responsive.
