Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Administrator's Guide to E-commerce Prentice Hall Professional

Who are Asian Americans? Moving beyond popular stereotypes of the "model minority" or "forever foreigner," most Americans know surprisingly little of the nation's fastest growing minority population. Since the 1960s, when different Asian immigrant groups came together under the "Asian American" umbrella, they have tirelessly carved out their presence in the labor market, education, politics, and pop culture. Many times, they have done so in the face of racism, discrimination, sexism, homophobia, and socioeconomic disadvantage. Today, contemporary Asian America has emerged as an incredibly diverse population, with each segment of the community facing its unique challenges. When Contemporary Asian America was first published in 2000, it exposed its readers to the formation and development of Asian American studies as an academic field of study, from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues

facing Asian America at the century's end. It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration, community development, and socialization on Asian American communities. This updated third edition discusses the impact of September 11 on Asian American identity and citizenship; the continued influence of globalization on past and present waves of immigration; and the intersection of race, gender, sexuality, and class on the experiences of Asian immigrants and their children. The volume also provides study questions and recommended supplementary readings and documentary films. This critical text offers a broad overview of Asian American studies and the current state of Asian America.

Asian American Studies Now truly represents the enormous changes occurring in Asian American communities and the world, changes that require a reconsideration of how the interdisciplinary field of Asian American studies is defined and taught. This comprehensive anthology, arranged in four parts and featuring a stellar group of contributors, summarizes and defines the current shape of this rapidly changing field, addressing topics such as transnationalism, U.S. imperialism, multiracial identity, racism, immigration, citizenship, social justice, and pedagogy. Jean Yu-wen Shen Wu and Thomas C. Chen have selected essays for the significance of their contribution to the field and their clarity, brevity, and accessibility to readers with little to no prior knowledge of Asian American studies. Featuring both reprints of seminal articles and groundbreaking texts, as well as bold new scholarship, Asian American Studies Now addresses the new circumstances, new communities, and new concerns that are reconstituting Asian America.

International Electronics Directory '90, Third Edition:

The Guide to European Manufacturers, Agents and

Applications, Part 1 comprises a directory of various

manufacturers in Europe and a directory of agents in

Europe. This book contains a classified directory of

electronic products and services where both

manufacturers and agents are listed. This edition is

organized into two sections. Section 1 provides details

of manufacturers, including number of employees,

production program, names of managers, as well as links

with other companies. The entries are listed

alphabetically on a country-by-country basis. Section 2

provides information concerning agents or

representatives, including names of manufacturers

represented, names of managers, number of employees,

and range of products handled. A number of these

companies are also active in manufacturing and so

appear in both Section 1 and Section 2. This book is a

valuable resource for private consumers.

This anthology is the perfect introduction to Asian

American studies, as it both defines the field across

disciplines and illuminates the centrality of the experience of Americans of South Asian, East Asian, Southeast Asian, and Filipino ancestry to the study of American culture, history, politics, and society. The reader is organized into two parts: "The Documented Past" and "Social Issues and Literature." Within these broad divisions, the subjects covered include Chinatown stories, nativist reactions, exclusionism, citizenship, immigration, community growth, Asia American ethnicities, racial discourse and the Civil Rights movement, transnationalism, gender, refugees, anti-Asian American violence, legal battles, class polarization, and many more. Among the contributors are such noted scholars as Gary Okihiro, Michael Omi, Yen Le Espiritu, Lisa Lowe, and Ronald Takaki; writers such as Sui Sin Far, Bienvenido Santos, Sigrid Nunez, and R. Zamora Linmark, as well as younger, emerging scholars in the field.

The Better World Shopping Guide: 5th Edition LWC Research

While we generally try to make our vote count every four years, few of us realize that our most immediate power to shape the world is being squandered on a daily basis. Every dollar we spend has the potential to create social and environmental change. In fact, it already has. The world that exists today is in large part a result of how our purchasing decisions have shaped it. The Better World Shopping Guide rates hundreds of products and services from A to F so you can quickly tell the "good guys" from the "bad guys" and ensure your money is not supporting corporations who make their decisions based solely on the bottom line. Drawing on decades of meticulous research, this completely revised and updated fifth edition will help you find out who actually "walks the talk" when it comes to: Environmental sustainability Human rights Community involvement Animal protection Social justice Small enough to fit in a back pocket or handbag, and organized in a user-friendly format, The Better World Shopping Guide will help you reward the companies who are doing good, penalize those involved in destructive activities, and change

the world as you shop! Ellis Jones, PhD, is the award-winning, best-selling author of four previous editions of The Better World Shopping Guide and co-author of The Better World Handbook. A scholar of social responsibility, global citizenship, and everyday activism, Jones has dedicated himself to uncovering practical ways for people to make a difference in the world. He currently teaches at Holy Cross College.

Contemporary Asian America (third edition) Rutgers University Press

Hitchhikers Guide to Electronics in the '90s covers the advances in electronics in a historical context, the microchip technology, which is at the heart of all technological advances, and the major industrial electronics power houses. The book tackles what's most interesting about electronics, such as the democratizing effects of technology, profits in electronics, and the importance of electronics, and then defines terminologies related to the componentry of the electronics industry. The text discusses the beneficiaries of electronics and the sectors of the electronics industry (i.e. computers, consumers, telecommunications, industrial, transportation, and military). The issues in chip technology including the importance of chips; vast cost of chip research and development and production; effect of erratic chip supplies on equipment companies; East/West imbalance in chip production; and the American and Japanese approaches to chip-making are also considered. The book concludes by describing the trends in electronics for the '90s, including the innovation, development, and rock-bottom cost of the technology. Students of electronics engineering and practicing electronics engineers will find this book useful.
