1 Answer I have a aiwa  
av-d58 receiver that I  
bought from a  
goodwill. Recently I  
got the volume to  
work and while testing  
it (I had a subwoofer  
and the center channel  
hooked up) it  
suddenly made a loud  
thud/boom through  
the subwoofer and did  
it a few times before it  
cut and started to  
make a loud  
buzzing/humming  
sound and low  
volume.
