2024 What if walls could talk? For historian

Madeleine Pelling, they can - if you know

where to look An aristocrat carves

obscenities into a tavern window with his

diamond ring. A shopkeeper's daughter

sketches customers with a piece of coal. A

desperate highwayman, condemned to

death, scratches his initials into his prison

cell door. Writing on the Wall goes in search

of the hidden voices of Britain's most

rebellious and transformative era - a time

when anyone in possession of a sharp point

and ready surface could find their voice and

immortalise their message. Through the

marks made by ordinary people, scratched

into walls, doors, windows and more,

Madeleine Pelling brings the lost stories of

the past to life in all their unguarded glory.

Bodywork & Painting John Wiley & Sons Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery," sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible

to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals, while accommodating new technologies and diverse threats to national

security.

"Everyone who's involved in financial markets must understand Point and Figure charting in order to get the full picture, whatever your view of technical analysis".

- Jim Rogers, author of Hot Commodities and Investment Biker "An invaluable road map for managing risk in the markets.

Tom's methodology has given us the discipline and confidence to look around corners for our clients for almost twenty years." - James A. Parish, President and COO, Morgan Keegan & Co., Private Client Group "Tom Dorsey continues to be one of the foremost authorities on Point and Figure charting. His relative strength analyses are essential for investors and traders alike. Furthermore, I always want to know what his NYSE Bullish Percent Indicators is "saying." - Lawrence G.

McMillan, President, McMillan Analysis Corp., www.optionstrategist.com "Tom Dorsey has done it again... he has taken his 30-plus years of unending devotion, talents, and insights in technical analysis and applied them to Exchange Traded Funds. He begins with the history of ETFs, explains how different they are from mutual funds, and then applies his expertise in Point and Figure charting to help traders and investors time their purchases and sales." - Ralph J. Acampora, CMT, Director of Technical research, Knight Capital "Reading Tom Dorsey's Point & Figure Charting is the like procuring a road map before you begin a journey. It's a comprehensive look at how to succeed in the markets. This book is not only essential but easy to follow for everyone." - Paulo Pinto, CEO, Dif Broker "Point and Figure Charting has become a

valuable part of my daily trading routine. As an investment professional, it makes perfect sense to use Tom's methods in conjunction with fundamental analysis." - Damion Carufe, Investment Professional

Writing on the Wall Grolier

Whilst accounting for the present-day popularity and relevance of Alan Watts' contributions to psychology, religion, arts, and humanities, this interdisciplinary collection grapples with the ongoing criticisms which surround Watts' life and work. Offering rich examination of as yet underexplored aspects of Watts' influence in 1960s counterculture, this volume offers unique application of

Watts' thinking to contemporary issues and critically engages with controversies surrounding the commodification of Watts' ideas, his alleged misreading of Biblical texts, and his apparent distortion of Asian religions and spirituality. Featuring a broad range of international contributors and bringing Watts' ideas squarely into the contemporary context, the text provides a comprehensive, yet nuanced exploration of Watts' thinking on psychotherapy, Buddhism, language, music, and sexuality. This text will benefit researchers, doctoral students, and academics in the

fields of psychotherapy, phenomenology, and the philosophy of psychology more broadly. Those interested in Jungian psychotherapy, spirituality, and the self and social identity will also enjoy this volume.

Addressing a significant need by describing the science and process involved to develop biosimilars of monoclonal antibody (mAb) drugs, this book covers all aspects of biosimilar development:

preclinical, clinical, regulatory, manufacturing. • Guides readers through the complex landscape involved with developing biosimilar versions of monoclonal antibody (mAb) drugs • Features flow charts, tables, and figures that clearly illustrate processes

and makes the book comprehensible and accessible • Includes a review of FDA-approved mAb drugs as a quick reference to facts and useful information • Examines new technologies and strategies for improving biosimilar mAbs

Manual of Recommended Practice for Railway Engineering and Maintenance of Way; Volume 1907
Legare Street Press

In 1967, Canada celebrated the 100th anniversary of its founding with a spectacular party, and the whole world was invited.

Montreal's Expo 67 was the first world's fair held in Canada, and it was a huge success, attracting over 50 million visitors. The 1,000-acre site was built on two man-made islands in the St.

Lawrence River and incorporated 90 futuristic pavilions created by some of the world's greatest architects and designers. Over 60 countries were represented, along with many private, corporate and thematic pavilions, all brought together under the theme "Man and his World." With performers and entertainers of all varieties, restaurants, cultural attractions, exhibitions and a world-class amusement park, Expo 67 was literally the party of the century, exceeding all expectations.

Abby Thompson's love life is a disaster. Everyone around her is blissfully falling in love, while she's busy binge watching anime. The last thing she needs is a walking temptation, in the form of ex-nerd turned dreamy astrophysics professor, Spencer Hill, aka her new client. It's her job to find Spencer his dream home, NOT fantasize about a ride on his space rocket. But the sparks between them are impossible

to ignore, and soon, Abby is wondering if her losing streak in love could be turning around. Can she get over her anxiety he's got her out-brained, and can he let go of the past and the fear that the girl he crushed on in high school is still out of his league? Find out in the new feel-good romantic comedy from New York Times and USA Today bestselling author, Carey Heywood!
