What does it mean to be modern outside the West? Based on a wealth of primary data collected over five years, Reality Television and Arab Politics analyzes how reality television stirred an explosive mix of religion, politics, and sexuality, fuelling heated polemics over cultural authenticity, gender relations, and political participation in the Arab world. The controversies, Kraidy argues, are

best understood as a social laboratory in which actors experiment with various forms of modernity, continuing a long-standing Arab preoccupation with specifying terms of engagement with Western modernity. Women and youth take center stage in this process. Against the backdrop of dramatic upheaval in the Middle East, this book challenges the notion of a monolithic "Arab Street" and offers an original perspective on Arab media, shifting attention away from a narrow focus on al-Jazeera, toward a vibrant media sphere that compels broad popular engagement and contentious political performance.

In this pathbreaking study, Amal Jamal analyzes the consumption of media by Arab citizens of Israel as a type of communicative behavior and a form of political action. Drawing on extensive public opinion survey data, he describes perceptions and use of media ranging from Arabic Israeli newspapers to satellite television broadcasts from throughout the Middle East. By participating in this semi-autonomous Arab public sphere, the average Arab citizen can connect with a wider Arab world beyond the boundaries of the Israeli state. Jamal shows how media aid the community's ability to resist the state's domination, protect its Palestinian national identity, and promote its civic status.

"Enclosure marshals bold new and persuasive arguments about the ongoing dispossession of Palestinians. Revealing the Israel-Palestine landscape primarily as one of enclosure, geographer Gary Fields sheds fresh light on Israel's actions. He places those actions in historical context in a broad analysis of power and landscapes across the modern world.

Examining the process of land-grabbing in early modern England, colonial North America, and contemporary Palestine, Enclosure shows how patterns of exclusion and privatization have emerged across time and geography. That the same moral, legal, and

cartographic arguments were copied by enclosers of land in very different historical environments challenges Israel's current rationale as being uniquely beleaguered. It also helps readers in the United Kingdom and the United States understand the Israel-Palestine conflict in the context of their own, tortured histories"--Provided by publisher.

“ Comprehensive and compelling...a landmark study ” of the Arab-Zionist conflict, told from both sides, by the author of Israel ’ s Secret Wars (Sunday Times, UK). Setting the scene at the end of the nineteenth century, when the first Zionist settlers arrived in the Ottoman-

ruled Holy Land, Black draws on a wide range of sources—from declassified documents to oral testimonies to his own vivid-on-the-ground reporting—to illuminate the most polarizing conflict of modern times. Beginning with the 1917 Balfour Declaration, in which the British government promised to favor the establishment of “ a national home for the Jewish people ” in Palestine, Black proceeds through the Arab Rebellion of the late 1930s, the Nazi Holocaust, Israel ’ s independence and the Palestinian Nakba (catastrophe), the watershed of 1967 followed by the Palestinian re-awakening, Israel ’ s settlement project, two Intifadas, the Oslo Accords, and continued negotiations and violence up to today. Combining engaging narrative with political analysis and social and cultural insights, Enemies and Neighbors is both an accessible overview and a fascinating investigation into the deeper truths of a furiously contested history.

Heck challenges the conventional wisdom that the Wahhabi movement or classic Islamic doctrines are the root causes of terrorism in the Middle East. Instead, he argues that modern

Middle Eastern terrorism stems from aborted efforts by Western intelligence agencies to co-opt political Islam as an opposing force against other emerging global ideologies deemed more politically dangerous at the time. The greatest chance to neutralize these fringe elements lies not through the imposition of Anglo-American democracy but in the creation of constructive economic development programs that ensure the distribution of wealth to the economically disenfranchised.

This book is a comprehensive overview and analysis of the Palestinians' travail as they move from revolutionary movement to state. Barry Rubin outlines the difficulties in the transition now under way arising from Palestinian history, society, and diplomatic agreements. He writes about the search for a national identity, the choice of an economic system, and the structure of government. Rubin finds the political system interestingly distinctive--it appears to be a pluralist dictatorship. There are free elections, multiple parties, and some latitude in civil liberties. Yet there is a

relatively unrestrained chief executive and arbitrariness in applying the law because of restraints on freedom. The new ruling elite is a complex mixture of veteran revolutionaries, heirs to large and wealthy families, professional soldiers, technocrats, and Islamic clerics. Beyond explaining how the executive and legislative branches work, Rubin factors in the role of public opinion in the peace process, the place of nongovernmental institutions, opposition movements, and the Palestinian Authority's foreign relations--including Palestinian views and interactions with the Arab world, Israel, and the United States. This book is drawn from documents in Arabic, Hebrew, and English, as well as interviews and direct observations. Rubin finds that, overall, the positive aspects of the Palestinian Authority outweigh the negative, and he foresees the establishment of a Palestinian state. His charting of the triumphs and difficulties of this state-in-the-making helps predict and explain future dramatic developments in the Middle East.

Gershon Baskin's memoir of thirty-eight years of intensive pursuit of peace begins with a childhood on Long Island and a bar mitzvah trip to Israel with his family.

Baskin joined Young Judaea back in the States, then later lived on a kibbutz in Israel, where he announced to his parents that he had decided to make aliya, emigrate to Israel. They persuaded him to return to study at NYU, after which he finally emigrated under the auspices of Interns for Peace. In Israel he spent a pivotal two years living with Arabs in the village of Kufr Qara. Despite the atmosphere of fear, Baskin found he could talk with both Jews and Palestinians, and that very few others were engaged in efforts at mutual understanding. At his initiative, the Ministry of Education and the office of right-wing prime minister Menachem Begin created the Institute for Education for Jewish-Arab Coexistence with Baskin himself as director. Eight years later he founded and codirected the only joint Israeli-Palestinian public policy think-and-do tank in the world, the Israel/Palestine Center for Research and Information. For decades he continued to cross borders, often with a kaffiyeh (Arab headdress) on his dashboard to protect his car in Palestinian neighborhoods. Airport passport control became Kafkaesque as Israeli agents routinely identified him as a security threat. During the many cycles of peace negotiations, Baskin has served both as an outside agitator for peace and as an advisor on

the inside of secret talks—for example, during the prime ministership of Yitzhak Rabin and during the initiative led by Secretary of State John Kerry. Baskin ends the book with his own proposal, which includes establishing a peace education program and cabinet-level Ministries of Peace in both countries, in order to foster a culture of peace.

Before the intifada began, Joost Hiltermann had already looked at local organizations in the Israeli-occupied West Bank and Gaza Strip and seen there the main elements that would eventually be used to mobilize the Palestinian masses. In the first comprehensive study of these organizations, Hiltermann shows how local organizers provided basic services unavailable under military rule, while recruiting for the cause of Palestinian nationalism.

This book presents pioneering research on the impact of new media on the Palestinian Diaspora, and is the result of unprecedented access to the Palestinian community in the United Kingdom. It explores issues of politics, conflict resolution, new media and daily life experiences of the dispersed Palestinian people. The research is linked to the contemporary phenomenon of the large immigration wave from the Middle East and Africa to Europe, and the increasing use in internet and smart phone applications by immigrants. As the book shows, new technology empowers the Palestinian people, enables their global visibility, and strengthens democratic values in this society. It deals with the impact of new media on the Palestinian Diaspora, from the emergence of satellite television channels and the internet to the development of social networks and smart phone applications. During the research period, internet and smart phone

usage of Palestinians in the UK was higher than the usage in Gaza and the West Bank. In recent years, there has been a significant increase in the use of digital and information technology in Gaza and the West Bank. The book will primarily appeal to international scholars specializing in media, the Middle East, diaspora and migration, political science, and peace and conflict studies. It will also be of interest to those involved in politics and new media, as well as government decision-makers, and legislators.

Most books dealing with the Israeli-Palestinian conflict see events through the eyes of policy-makers, generals or diplomats. Menachem Klein offers an illuminating alternative by telling the intertwined histories, from street level upwards, of three cities-Jerusalem, Jaffa, and Hebron-and their intermingled Jewish, Muslim and Christian inhabitants, from the nineteenth century to the present. Each of them was and still is a mixed

city. Jerusalem and Hebron are holy places, while Jaffa till 1948 was Palestine's principal city and main port of entry. Klein portrays a society in the late Ottoman period in which Jewish-Arab interactions were intense, frequent, and meaningful, before the onset of segregation and separation gradually occurred in the Mandate era. The unequal power relations and increasing violence between Jews and Arabs from 1948 onwards are also scrutinised. Throughout, Klein bases his writing not on the official record but rather on a hitherto hidden private world of Jewish-Arab encounters, including marriages and squabbles, kindnesses and cruelties, as set out in dozens of memoirs, diaries, biographies and testimonies. *Lives in Common* brings together the voices of Jews and Arabs in a mosaic of fascinating stories, of lived experiences and of the major personalities that shaped them over the last 150 years.
