The Georgia Pest Management Handbook provides current information on selection, application, and safe use of pest control chemicals. This handbook has recommendations for pest control around homes and on pets; for pests of home garden vegetables, fruits, and ornamentals; and for pests of public health interest associated with our homes. Cultural, biological, physical, and other types of control are recommended where appropriate. Pesticide recommendations are based on information on the manufacturer labels and on performance data from research and extension trials at the University of Georgia and its sister institutions. Because environmental conditions, the severity of pest pressure, and methods of application vary widely, recommendations do not imply that performance of pesticides will always be acceptable. This publication is intended to be used only as a guide. Trade and brand names are used only for information. The University of Georgia does not guarantee nor warrant published standards on any product mentioned; nor does the use of a trade or brand name imply approval of any product to the exclusion of others that may also be suitable. Always follow the use instructions and precautions on the pesticide label. For questions, concerns, or improvement suggestions regarding the Georgia Pest Management

Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition) The Law Library presents the complete text of the Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition). Updated as of May 29, 2018 FMCSA proposes to revise the standards for mandatory training requirements for entry-level operators of commercial motor vehicles (CMVs) in interstate operations who are required to possess a commercial driver's license (CDL). The proposed rule would not apply to drivers who currently possess a CDL or obtain a CDL before a date 3 years after a final rule goes into effect. Following that date, persons applying for new or upgraded CDLs would be required to successfully complete specified minimum classroom and behind-the-wheel training from an accredited institution or program. The State driver-licensing agency would only issue a CDL if the applicant presented a valid Driver Training Certificate obtained from an accredited institution or program. This NPRM would strengthen the Agency's entry-level driver training requirements as a means to enhance the safety of CMV operations on our Nation's highways. This book contains: - The complete text of the Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators (US Federal Motor Carrier Safety Administration Regulation) (FMCSA) (2018 Edition) - A table of contents with the page number of each section

Driving is a privilege and not a right. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey.

Two neurolearning experts reveal the hidden benefits of having a dyslexic brain. In this paradigm-shifting book, neurolearning experts Drs. Brock and Fernette Eide describe an exciting new brain science that reveals that dyslexic people have unique brain structure and organization. While the differences are responsible for certain challenges with literacy and reading, the dyslexic brain also gives a predisposition to important skills, and special talents. While dyslexics typically struggle to decode the written word, they often also excel in such areas of reasoning as mechanical (required for architects and surgeons), interconnected (artists and inventors); narrative (novelists and lawyers), and dynamic (scientists and business pioneers).

The Dyslexic Advantage provides the first complete portrait of dyslexia.
