nongovernmental foundation organizations that indexes. make funds available for health purposes. *Proceedings of the Board of Regents* Includes national, regional, and local Information Today
foundations. Helping you from your earliest brainstorm to fully funded projects, this essential directory offers countless tips and resources for

artists and arts organizations seeking funding for performances, exhibits, residencies, general operations, fellowships, and numerous other program types. Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorm to fully funded projects, this essential directory offers countless tips and resources for artists and arts organizations seeking funding for performances,

exhibits, residencies, general operations, fellowships, and numerous other program types. This invaluable directory highlights over 3,650 current programs from 2,106 sponsors, including U.S. and foreign foundations, corporations, state arts councils and government agencies, and other organizations. Each record includes: -Grant title -Description -Requirements -Amount -Application deadline -Contact information (phone, fax, and

email) -Internet access -Sponsor name and address -Samples of awarded grants (when available) Four indexes- subject, sponsoring organization, program type, and geographic-help you identify the right program quickly. Also included is A Guide to Proposal Planning and Writing, by Jeremy Miner and Lynn Miner, which offers essential tips on the grantseeking process. National Guide to Funding in Health Foundation Center Publishing Few needs are more

important to a nonprofit organization than funding for operating costs. In this new directory, nonprofits and other organizations seeking grants and funding opportunities to support general operating expenses will find over 1,300 current operating grants—organized by state—with contact and requirement information for each. Three user-friendly indexes (subject, sponsor, and geographic restriction) help grantseekers quickly find the ideal funding opportunity.

Foundation Grants to Individuals

Bloomsbury Publishing USA

The 5th Edition of the National Guide provides essential facts on more than 600 foundations and corporate direct giving programs, each with a history of awarding grant dollars to libraries and other information centers. You will cut hours from your fundraising research time by having, in a single convenient volume, a list of grantmakers committed to your subject field

The new 5th Edition of the National Guide is designed to help

you get the facts you need to bolster your target list of funding prospects. The book features: -- Grantmaker Portraits -- Each entry provides crucial data -- address and contact name, financial data, giving priorities statement, application procedures, and key officials. -- Sample Grants -- Many entries include descriptions of recently awarded grants over 1,000 sample grants in all -- Range of Indexes -- The volume's indexes help you target potential funders by the

names of donors, officers, and trustees; geographic area; types of support; grants awarded by subject; and name of the foundation or corporate giver. Each year the grantmakers featured in this volume award millions of grant dollars to a wide range of institutions and projects. Grant recipients include academic, law, art, and medical libraries, as well as other nonprofit information clearinghouses, databases, and public service centers.

Grantseeking
is always a
competitive
process. As
organizational
needs outstrip
resources,

groups turn to grants as a means of strengthening their financial footing while pursuing their missions. This book draws on the authors' three decades of grantseeking experiences in writing successful proposals, conducting grant workshops nationwide, reviewing government and foundation proposals, and critiquing application guidelines for grantmakers to lead readers through the process of planning and writing successful

proposals. The authors first provide practical strategies for project planning, including identifying sponsors, matching grantseeker needs to sponsor priorities, and qualifying prospects through pre-proposal contacts. The authors then guide users systematically through proposal writing, including introducing a template for letter proposals to private foundations and corporations, describing the primary elements of government proposals, and providing tips for constructing a realistic budget. This advice as well as the key questions to answer before you begin writing; actual proposals that were declined, with rejection reasons; and complete sample letter proposals comprised in this volume will help both beginning and experienced grantseekers to better plan and develop fundable projects. *Grants for Medical Research Greenwood Literally millions of dollars in grant awards are waiting to be claimed...* if you and your patrons know where, how, and when to apply for them.
