**Bridges: Alexander the Great Pen and Sword**

Presents a vivid, readable biography of a brilliant, often contradictory leader, from his youth in Macedonia as the son of King Philip and Queen Olympia, his education by Aristotle, his military conquests, and his influence on the ancient world. Reprint.

**The Wisdom of Alexander the Great Seed Learning**

Alexander the Great (356-333 BC) was transformed into a legend by all those he met, leaving an enduring tradition of romances across the world. Aside from its penetration into every language of medieval Europe, the Alexander romance arguably had its greatest impact in the Persian language. Haila Manteghi here offers a complete survey of that deep tradition, ranging from analysis of classical Persian poetry to popular romances and medieval Arabic historiography. She explores how the Greek work first entered the Persian literary tradition and traces the development of its influence, before revealing the remarkable way in which Alexander became as central to the Persian tradition as any other hero or king. And, importantly, by focusing on the often-overlooked early medieval Persian period, she also demonstrates that a positive view of Alexander developed in Arabic and Persian literature before the Islamic era. Drawing on an impressive range of sources in various languages - including Persian, Arabic and Greek - Manteghi provides a profound new contribution to the study of the Alexander romances. Beautifully written and with vibrant literary motifs, this book is important reading for all those with an interest in Alexander, classical and medieval Persian history, the early Islamic world and classical reception studies.

**Alexander the Great The History of Alexander the Great World History Readers Alexander the Great**  
In 336 BC Alexander the Great became king of Macedon. During his twelve-year reign he conquered the Achaemenid Persian Empire, the largest to have yet existed, and in the process had a profound effect on the world he moved through. In this examination of his life and career, Hugh Bowden explores his cultural and historical legacy.

**As Described by Arrian, Q. Curtius, Diodoros, Plutarch and Justin The History Press**

Most of what we 'know' about Alexander the Great (356-323 BC) comes from the pages of much later historians, writing 300 years or more after these events. But these Roman-era writers drew on the accounts of earlier authors who were contemporary with Alexander, some of whom took part in the momentous events they described. David Grant examines the fragments of these earlier eyewitness testimonies which are preserved as undercurrents in the later works. He traces their influence and monopoly of the 'truth' and spotlights their manipulation of events to reveal how the Wars of the Successors shaped the agendas of these writers. It becomes clear that Alexander's courtiers were no-less ambitious than than their king and wanted to showcase their role in the epic conquest of the Persian Empire to enhance their credibility and legitimacy in their own quests for power. In particular, Grant reveals why reports of the dying king's last wishes conflict, and he explains why testimony relegated to 'romance' may house credible grains of truth. The author also skillfully explains how manuscripts became further corrupted in their journey from the ancient world to the modern day. In summary, this work by a recognized expert on the period highlights why legacy of Alexander is built on very shaky foundations.

**The Invasion of India by Alexander the Great Bloomsbury Publishing**

Tough, resolute, fearless, Alexander was a born warrior and ruler of passionate ambition who understood the intense adventure of conquest and of the unknown. When he died in 323 BC aged thirty-two, his vast empire comprised more than two million square miles, spanning from Greece to India. His achievements were unparalleled - he had excelled as leader to his men, founded eighteen new cities and stamped the face of Greek culture on the ancient East. The myth he created is as potent today as it was in the ancient world. Robin Lane Fox's superb account searches through the mass of conflicting evidence and legend to focus on Alexander as a man of his own time. Combining historical scholarship and acute psychological insight, it brings this colossal figure vividly to life.

**Plutarch's Lives: Alexander the Great. -Julius Caesar. -Phocion. -Cato Utican The Rosen Publishing Group, Inc**

The military expert and author of Philip II of Macedonia presents 9 profiles of exemplary leadership from the ancient world. Of all the military commanders throughout history, only a few are remembered as great leaders of men in battle. Is there a combination of personal attributes and historical circumstances that produces great commanders? Professor Richard A. Gabriel analyses the biographies of ten great generals, all of whom lived between 1481 BC and AD 632, in order to identify the characteristics of intellect, psychology, personality, and experience that allowed them to tread the path to greatness. Some of the names included in Gabriel's selection, such as Moses and Muhammad, will surprise many readers—as will the historical figures Gabriel chooses to omit, including Alexander the Great and Atilla the Hun. But Gabriel is not merely interested in famous military exploits. A retired soldier and professor at the Canadian Defence College, he distills the timeless essence of military leadership through the examples of Julius Caesar, Philip II of Macedonia, Thutmose III of Egypt, and others

**The Ancient Sources And Why They Can't Be Trusted University of Michigan Press**

What has Alexander the Great to do with Jesus Christ? Or the legendary king's conquest of the Persian Empire (335 – 23 BCE) to do with the prophecies of the Old Testament? In many ways, the early Christian writings on Alexander and his legacy provide a lens through which it is possible to view the shaping of the literature and thought of the early church in the Greek East and the Latin West. This book articulates that fascinating discourse for the first time by focusing on the early Christian use of Alexander. Delving into an impressively deep pool of patristic literature written between 130 – 313 CE, Christian Thru Djurslev offers original interpretations of various important authors, from the learned lawyer Tertullian to the 'Christian Cicero' Lactantius, and from the apologist Tatian to the first church historian Eusebius. He demonstrates that the early Christian adaptations of the Alexandrian myths created a new tradition that has continued to develop and expand ever since. This innovative work of reception studies is important reading for all scholars of Alexander the Great and early church history.

**The Personality, Intellectual, and Leadership Traits That Made Them Great Oxford University Press, USA**

A lavishly produced monograph about a late 15th Century illuminated manuscript. The text is a translation into French, by Vasco da Lucena, of one of the primary sources for the life of Alexander. The illustrations portray the events of the story in contemporary costumes and settings. Now in the John Paul Getty collection, this publication discusses the history of the text and the manuscript itself, with full colour reproduction of each illustration. A beautiful book about a beautiful manuscript.

**The Invasion of India by Alexander the Great Routledge**

King Alexander III 'the Great' of Macedon was one of the greatest military commanders the world has ever known. This book seeks to dispel some of the myths which have grown up around him and to provide an up-to-date account of his life. This includes the Macedonian background and Alexander's early years, his campaigns in Thrace and Illyria and the destruction of Thebes, the invasion of the Persian Empire and the battles which led to its conquest, his expeditions to India and finally his death in Babylon. Dr Rice also assesses Alexander's personality, and provides a summary of his legacy to the western world.

**World History Readers Shell Education**

This exciting new edition is an indispensable guide for undergraduates to the study of Alexander the Great, showing the problems of the ancient source material, and making it clear that there is no single approach to be taken. The twelve thematic chapters contain a broad selection of the most significant published articles about Alexander, examining the main areas of debate and discussion: The Sources Alexander's Influences and the Macedonian Background Alexander's Aims Alexander's Battles and Generalship Alexander and the Greeks Alexander and the Persian Empire Alexander, India and the Gedrosian Desert From Mass Marriage to Death Alexander and the 'Unity of Mankind' Alexander and Deification Alexander and Conspiracies Alexander: The 'Great'? The Reader has the distinctive feature of translating a substantial number of the more inaccessible primary sources; each chapter is also prefaced with a succinct introduction to the topic under consideration.

As students regularly read and perform these age-appropriate texts, they improve decoding, interpretation, fluency, and comprehension.

**Alexander the Great Vintage Books**

---

Relates the story of Alexander the Great who, at only age 21, became King of Macedonia and set off on a twelve-year journey to conquer the known world and extend the boundaries of Greek civilization.

[A Very Short Introduction](#) Walter de Gruyter GmbH & Co KG

What can we learn from the stunning rise and mysterious death of the ancient world's greatest conqueror? An acclaimed biographer reconstructs the life of Alexander the Great in this magisterial revisionist portrait. " [An] infectious sense of narrative momentum . . . Its energy is unflagging, including the verve with which it tackles that teased final mystery about the specific cause of Alexander's death." —The Christian Science Monitor More than two millennia have passed since Alexander the Great built an empire that stretched to every corner of the ancient world, from the backwater kingdom of Macedonia to the Hellenic world, Persia, and ultimately to India—all before his untimely death at age thirty-three. Alexander believed that his empire would stop only when he reached the Pacific Ocean. But stories of both real and legendary events from his life have kept him evergreen in our imaginations with a legacy that has meant something different to every era: in the Middle Ages he became an exemplar of knightly chivalry, he was a star of Renaissance paintings, and by the early twentieth century he'd even come to resemble an English gentleman. But who was he in his own time? In *Alexander the Great*, Anthony Everitt judges Alexander's life against the criteria of his own age and considers all his contradictions. We meet the Macedonian prince who was naturally inquisitive and fascinated by science and exploration, as well as the man who enjoyed the arts and used Homer's great epic the *Iliad* as a bible. As his empire grew, Alexander exhibited respect for the traditions of his new subjects and careful judgment in administering rule over his vast territory. But his career also had a dark side. An inveterate conqueror who in his short life built the largest empire up to that point in history, Alexander glorified war and was known to commit acts of remarkable cruelty. As debate continues about the meaning of his life, Alexander's death remains a mystery. Did he die of natural causes—felled by a fever—or did his marshals, angered by his tyrannical behavior, kill him? An explanation of his death can lie only in what we know of his life, and Everitt ventures to solve that puzzle, offering an ending to Alexander's story that has eluded so many for so long.

"At twenty, he was the king of a country. By age thirty, he ruled an empire. He has been called the greatest general who ever lived. He was Alexander the Great!"--P. [4] of cover.

[And Conquest of Persia](#) J Paul Getty Museum Publications

Recent scholarship has recognized that Philip II and Alexander the Great adopted elements of their self-fashioning and court ceremonial from previous empires in the Ancient Near East, but it is generally assumed that the advent of the Macedonian court as a locus of politics and culture occurred only in the post-Alexander landscape of the Hellenistic Successors. This volume of groundbreaking essays by leading scholars on Ancient Macedonia goes beyond existing research questions to assess the profound impact of Philip and Alexander on court culture throughout the ages. The papers in this volume offer a thematic approach, focusing upon key institutional, cultural, social, ideological, and iconographical aspects of the reigns of Philip and Alexander. The authors treat the Macedonian court not only as a historical reality, but also as an object of fascination to contemporary Greeks that ultimately became a topos in later reflections on the lives and careers of Philip and Alexander. This collection of papers provides a paradigm-shifting recognition of the seminal roles of Philip and Alexander in the emergence of a new kind of Macedonian kingship and court culture that was spectacularly successful and transformative.
