**A COMPANION TO THE ACHAEMENID PERSIAN EMPIRE** A comprehensive review of the political, cultural, social, economic and religious history of the Achaemenid Empire Often called the first world empire, the Achaemenid Empire is rooted in older Near Eastern traditions. A Companion to the Achaemenid Persian Empire offers a perspective in which the history of the empire is embedded in the preceding and subsequent epochs. In this way, the traditions that shaped the Achaemenid Empire become as visible as the powerful impact it had on further historical development. But the work does not only break new ground in this respect, but also in the fact that, in addition to written testimonies of all kinds, it also considers material tradition as an equal factor in historical reconstruction. This comprehensive two-volume set features contributions by internationally-recognized experts that offer balanced coverage of the whole of the empire from Anatolia and Egypt across western Asia to northern India and Central Asia. Comprehensive in scope, the Companion provides readers with a panoramic view of the diversity, richness, and complexity of the Achaemenid Empire, dealing with all the many aspects of history, event history, administration, economy, society, communication, art, science and religion, illustrating the multifaceted nature of the first true empire. A unique historical account presented in its multiregional dimensions, this important resource deals with many aspects of history, administration, economy, society, communication, art, science and religion it deals with topics that have only recently attracted interest such as court life, leisure activities, gender roles, and more examines a variety of available sources to consider those predecessors who influenced Achaemenid structure, ideology, and self-expression contains the study of Nachleben and the history of perception up to the present day offers a spectrum of opinions in disputed fields of research, such as the interpretation of the imagery of Achaemenid art, or questions of religion includes extensive bibliographies in each chapter for use as starting points for further research devotes special interest to the east of the empire, which is often neglected in comparison to the western territories Part of the acclaimed Blackwell Companions to the Ancient World series, A Companion to the Achaemenid Persian Empire is an indispensable work for students, instructors, and scholars of Persian and ancient world history, particularly the First Persian Empire.

**Hyperinflation** Oxford University Press, USA

Ten essays from a symposium held at Newcastle University in 1997, which examine the general themes of kingship and imperialism by focusing on the romances that surround Alexander.

**The Federalist Papers** Art Media Resources

In 336 BC Alexander the Great became king of Macedon. During his twelve year reign he conquered the Achaemenid Persian Empire, the largest to have yet existed, and in the process had a profound effect on the world he moved through. In this examination of his life and career, Hugh Bowden explores his cultural and historical legacy.

New Testament Basics introduces college, university, seminary, and divinity school students to the study of the New Testament. Authors Stefan Alkier and David M. Moffitt adopt five major aims: (i) to explore how the Bible came to exist, dealing with the formation and significance of the Christian canon; (ii) to discuss the ways the Bible continues to exert influence on contemporary culture, demonstrating the ongoing value and importance of biblical literacy; (iii) to introduce readers to some of the most fundamental methods used in the study of the New Testament, including a substantial discussion of semiotics and its usefulness for New Testament interpretation; (iv) to provide a survey of central historical, social, and economic information as important contextual knowledge for interpreting the New Testament; and (v) to offer some brief discussion of the contents of several New Testament texts and consider ways they might inform theological reflection. In the end, Alkier and Moffitt's New Testament Basics fosters within students important competencies needed to read and interpret the New Testament for themselves.

Alexander the Great is the towering hero of the classical world: a fearless general, the conqueror of the Persians, and the visionary ruler of a vast empire. In this seminal biography, Paul Cartledge, one of the world's foremost scholars of ancient Greece, gives us the most reliable and intimate portrait of the man himself. Cartledge brilliantly evokes Alexander's remarkable political and military accomplishments, cutting through the myths to show why he was such a great leader. He explores our endless obsession with Alexander and gives us insight into both his capacity for brutality and his sensitive grasp of international politics. As he brings Alexander vividly to life, Cartledge also captures his enduring impact on world history and culture.

**Business Model Generation** Robert Hale

A lavishly produced monograph about a late 15th Century illuminated manuscript. The text is a translation into French, by Vasco da Lucena, of one of the primary sources for the life of Alexander. The illustrations portray the events of the story in contemporary costumes and settings. Now in the John Paul Getty collection, this publication discusses the history of the text and the manuscript itself, with full colour reproduction of each illustration. A beautiful book about a beautiful manuscript.

**Alexander the Great** Routledge

This book, in minute detail, presents a polyphony of voices, perspectives and opinions, from which emerges a diverse but coherent representation of the complex relationship between religion and war in the Ancient Near East, Greece and Rome.

**Alexander the Great** Routledge

As art museum educators become more involved in curatorial decisions and creating opportunities for community voices to be represented in the galleries of the museum, museum education is shifting from responding to works of art to developing authentic opportunities for engagement with their communities. Current research focuses on museum education experiences and the wide-reaching benefits of including these experiences into art education courses. As more universities add art museum education to their curricula, there is a need for a text to support the topic and offer examples of real-world museum education experiences. Engaging Communities Through Civic Engagement in Art Museum Education deepens knowledge on museum and art education and civic engagement and bridges the gap from theory to practice. The chapters focus on various sectors of this research, including diversity and inclusion in museum experiences, engaging communities through new techniques, and museum and university partnerships. As such, it includes coverage on timely topics that include programs and audience engagement with the LGBTQ+, refugee, disability, and senior communities; socially responsive museum pedagogy; and the use of student workers. This book is ideal for museum educators, museum directors, curators, professionals, practitioners, researchers, academicians, and students who are interested in updated knowledge and research in art education, curriculum development, and civic engagement.

**Caracalla** Oxford University Press, USA

In the spring of 334 B.C., the 22-year-old King Alexander of Macedon led an army of 50,000 men on the most ambitious conquest of ancient times. This is a straightforward account of Alexander's remarkable campaigns, clearly and thoughtfully presented. A more intimate side of Alexander is also presented. 147 illustrations, 99 in color. 5 maps.

**New Testament Basics** Createspace Independent Publishing Platform

A collection of 63 beautiful stucco and terra-cotta heads of the Silk Route Portrait Collection, summarizing the best aspects of Gandharan vision of the Buddha's own tale. Heads in the present collection, dating mainly from the 3rd to the 5th centuries, were at their origin part of the ornamentation of Buddhist stupas - memorials to Buddha, celebrating his tale, and set up along the historic Silk Route, linking Central Asia with China in the east, and Byzantium in the west. With a foreword by the Dalai Lama.

**Sources for Frameworks of World History** Capstone

The Spartans is a compelling narrative that explores the culture and civilization of the most famous "warrior people": the Spartans of ancient Greece, by the world's leading expert in the field. Sparta has often been described as the original Utopia--a remarkably evolved society whose warrior heroes were forbidden any other trade, profession, or business. As a people, the Spartans were the living exemplars of such core values as duty, discipline, the nobility of arms in a cause worth dying for, sacrificing the individual for the greater good of the community (illustrated by their role in the battle of Thermopylae), and the triumph of will over seemingly insuperable obstacles--qualities that today are frequently believed to signify the ultimate heroism. Paul Cartledge is the distinguished scholar and historian who has long been seen as the leading international authority on ancient Sparta. He traces the evolution of Spartan society--the culture and the people, as well as the tremendous influence they had on their world and even ours. He details throughout the narrative the lives of such illustrious and myth-making figures as Lycurgus, King Leonidas, Helen of Troy (and Sparta), and Lysander, and explains how the Spartans, although they placed a high value on masculine ideals, nevertheless allowed women an unusually dominant and powerful role--unlike Athenian culture with which the Spartans are so often compared. In resurrecting the ancient culture and society of the Spartans, Cartledge delves deep into ancient texts and archeological sources and complements his text with illustrations that depict original Spartan artifacts and drawings, as well as examples of representational paintings from the Renaissance onwards--including J.L. David's famously brooding "Leonidas." This illuminating volume that ties in with the PBS television series of the same name, airing in the summer of 2003.

**Biography of Alexander the Great.**

**Echoes of Alexander the Great** BRILL

Alexander's defeat of the Persian Empire in 331 BC captured the popular imagination, inspiring an endless series of stories and representations that emerged shortly after his death and continues today. An art historian and archaeologist, Boardman draws on his deep knowledge of Alexander and the ancient world to reflect on the most interesting and emblematic depictions of this towering historical figure. Some of the stories in this book relate to historical events associated with Alexander's military career and some to the fantasy that has been woven around him, and Boardman relates each with his customary verve and erudition. From Alexander's biographers in ancient Greece to the illustrated Alexander "Romances" of the Middle Ages to operas, films, and even modern cartoons, this generously illustrated volume takes readers on a fascinating cultural journey as it delivers a perfect pairing of subject and author.

**The Globalization of Addiction** Abrams

Since 1970s when the world was experiencing an "age of inflation", a great volume of academic research about hyperinflation has been conducted. However, it is also true that parrot-like superficial talks abound, without questioning the economic, political and social foundations existing underneath the economic phenomenon. Based on research results of contemporary economists, media reports and historical works, this book will be the most comprehensive narrative of all major events of hyperinflation worldwide from the turn of the first millennium to the mid-2010s. Firstly, it gives a brief illustration of the basic concepts of hyperinflation, starting with the definitions and price measurement. Then it traces and analyzes all major episodes of hyperinflation that occurred over the past two thousand years or so, from the earliest incidence to the four tidal waves in the 20th century, and to the three latest episodes in the 21st century. Using basic concepts in modern finance such as indexation and dollarization, this book explains why hyperinflation in some countries could explode into astronomical levels, while rhythms of hyperinflation in the 20th century world are in resonance of megatrends in world economy and politics. Finally, this book underscores

---

the importance of policy making, institutional building and international relations in the process of hyperinflation and stabilization. Scholars and students studying money and finance, economic history, international finance and economics will be attracted by this book.

Alexander the Great Vintage

Recounts the life of Olympias, the first woman to play a major role in Greek political history. This biography penetrates the myth, fiction and sexual politics, and conducts a close examination of Olympias through historical and literary sources.

Conquest and Empire Pen and Sword

Business Model Generation is a handbook for visionaries, game changers, and challengers striving to defy outmoded business models and design tomorrow's enterprises. If your organization needs to adapt to harsh new realities, but you don't yet have a strategy that will get you out in front of your competitors, you need Business Model Generation. Co-created by 470 "Business Model Canvas" practitioners from 45 countries, the book features a beautiful, highly visual, 4-color design that takes powerful strategic ideas and tools, and makes them easy to implement in your organization. It explains the most common Business Model patterns, based on concepts from leading business thinkers, and helps you reinterpret them for your own context. You will learn how to systematically understand, design, and implement a game-changing business model--or analyze and renovate an old one. Along the way, you'll understand at a much deeper level your customers, distribution channels, partners, revenue streams, costs, and your core value proposition. Business Model Generation features practical innovation techniques used today by leading consultants and companies worldwide, including 3M, Ericsson, Capgemini, Deloitte, and others. Designed for doers, it is for those ready to abandon outmoded thinking and embrace new models of value creation: for executives, consultants, entrepreneurs, and leaders of all organizations. If you're ready to change the rules, you belong to "the business model generation!"

Poetics Oxford University Press

Addiction is increasing all around the world, and the conventional remedies don't work. The Globalization of Addiction argues that the cause of this failure to control addiction is that past treatments have focused too single-mindedly on the afflicted individual addict. This book presents a radical rethink about the nature of addiction.

The Army Chaplaincy IGI Global

Over the years, some 20,000 books and articles have been written about Alexander the Great, the vast majority hailing him as possibly the greatest general that ever lived. Richard A. Gabriel, however, argues that, while Alexander was clearly a successful soldier-adventurer, the evidence of real greatness is simply not there. The author presents Alexander as a misfit within his own warrior society, attempting to overcompensate. Thoroughly insecure and unstable, he was given to episodes of uncontrollable rage and committed brutal atrocities that would today have him vilified as a monstrous psychopath. The author believes some of his worst excesses may have been due to what we now call Post Traumatic Stress Disorder, of which he displays many of the classic symptoms, brought on by extended exposure to violence and danger. Above all the author thinks that Alexander's military ability has been flattered by History. Alexander was tactically competent but contributed nothing truly original, while his strategy was often flawed and distorted by his obsession with personal glory. This radical reappraisal is certain to provoke debate.
