Thank you for reading Alexander Theodore Ayrault Dodge. As you may know, people have search hundreds times for their chosen readings like this Alexander Theodore Ayrault Dodge, but end up in malicious downloads. Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some malicious bugs inside their laptop.

Alexander Theodore Ayrault Dodge is available in our digital library an online access to it is set as public so you can download it instantly.

Our digital library hosts in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, the Alexander Theodore Ayrault Dodge is universally compatible with any devices to read

[Great Captains](#) Greenhill Press

Following the course of Civil War campaigns can be taxing for even the most well-read military scholar. The operations at major sites such as Vicksburg, Gettysburg, and Petersburg were complicated matters, with generals on each side commanding infantry and cavalry brigades from different positions and making simultaneous movements along complex geographic routes; the battles were less climactic moments than prolonged struggles marked by continual flux. But Theodore Ayrault Dodge makes it easy. With his well-drawn maps, his positioning of each movement with its date and, where important, time, his enumeration of the size of—and the losses suffered by—the various forces engaged, Dodge makes every episode of this long war clear and comprehensible. His concise military history of the American Civil War evenhandedly treats major and minor operations with the space each deserves, presenting a kind of skeleton of the Civil War. Here is perhaps the only general history that avoids over-detailed descriptions and technical terms, withholds partisan bias, treats generals on both sides with admiration and respect, and communicates elegantly yet succinctly, calmly yet vividly, the entire course of the conflict that changed the way men and nations make war.

Alexander War College Series

*History of Alexander an His Art of War* Da Capo Press

A classic history of one of the world's greatest military commanders. At the age of 20, Alexander the Great inherited the near-bankrupt kingdom of Macedonia and its small but revolutionary army, built around an unbreakable infantry phalanx and a shock cavalry force. In just ten years, he led this army on a march of conquest across most of the known world: Greece, Asia Minor, the Near East, Egypt, the lands of the Fertile Crescent, and on into what we now know as Afghanistan, Pakistan, and India. Undefeated in battle, in his short life he immeasurably changed the course of history. Theodore Ayrault Dodge's account of the campaigns was first published in 1890, as part of his "Great Captains" series. The author, an experienced military officer and historian, follows the entire career of Alexander the Great, reconstructs his army, his strategy, and all of his battles, and explains his lasting impact on the art of war. The result is a classic military history and biography. This ebook edition includes an active table of contents, reflowable text, and over 200 campaign maps, battle diagrams, and illustrations.

Alexander Da Capo Press

"Julius Caesar, one of the world's greatest generals, learnt his first lessons in the art of war when he was still mainly involved in political rather than military life, suppressing the unruly Lusitanian tribes while governor of Spain. In 45 B.C., the year before his assassination, he was back in Spain for his last victory. The intervening, years of campaign saw him earning a formidable military reputation. Nine years' fighting in Gaul were his "school in the grand operations of war", during which time he also led two invasions of Britain. Two years after crushing the united Gaulish armies at the battle of Alesia, Caesar's forces crossed the Rubicon to take on Pompey's army in civil war. Campaigns in Egypt and across Northern Africa (defeating Scipio) followed, before Caesar's return to Spain to inflict final defeat on the Pompeian army at Munda. Before writing his classic account of Caesar's campaigns, Dodge visited all of the great general's know battlefields. Familiar with their topography and gaining insight into the course of the battles as a result, he provides descriptions of the actions that are distinguished by their clarity. Dodge goes on to examine Caesar's strategy and tactics and the structure and operation of his army, in detail, and surveys the stagnation of the art of war in the Roman Empire after Caesar's death. In this unrivalled work, he shows that "Taken in all his characters, Caesar is the greatest man in Antiquity". Classic account of Caesar's campaigns Military analysis of Caesar's methods Many charts, maps, plans of battle and illustrations."--Jacket.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. We have represented this book in the same form as it was first published. Hence any marks seen are left intentionally to preserve its true nature.

Cæsar Tales End Press

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

Great Captains Ravenio Books

Dodge here vividly reconstructs every major battle of Alexander's brilliant military career. Theodore Ayrault Dodge (1842 - 1909) was an American officer and military historian. He fought as a Union officer in the American Civil War; as a writer, he was devoted to both the Civil War and the great generals of ancient and European history.

---

Warfare In The East And The Role Of Philip Ii Of Macedonia, Alexander S Father, Through To The Beginning Of Alexander S Quest To Carry Out His Father S Dream Of Conquering The Persian Empire, His Famous Victory On The Issus River In 333 Bc From Which King Darius And His Army Fled In Disarray And The Beginning Of 331 Bc By Which Time Syria, Phoenicia And Egypt Were Under Alexander S Control. The Second Volume Takes Alexander From His Becoming Undisputed Master Of The World, As Then Known To The Greeks East Of The Adriatic, After Darius S Death, Through To Alexander S Own Death At The Age Of 32 From Fever. The Book Would Be Of Great Use To The Students And Scholars Of History As Well As Of Military Science. It Would Also Be Of Interest To The Layman Interested In History And The Ancient Art Of War.

#### Hannibal

In this book, the author lays out a detailed account of Alexander's spectacular life and supplies a vivid reconstruction of all the major battles Alexander fought in his short but successful march of conquest. The author amply illustrates, through his detailed history of the nature of warfare in the ancient world, why both his contemporaries and later historians and soldiers held up Alexander as being one of the greatest commanders of all time.
