De Kampioen is the magazine of The Royal
Dutch Touring Club ANWB in The Netherlands.
It's published 10 times a year with a circulation of
approximately 3,5 million copies.

*Provincial Families of the
Renaissance* Reverte

The story of Alfa Romeo, the
prestigious Italian marque which
created some of the most memorable
cars of all time during its 100
year-plus history, is told by
specification after specification
in a "virtual gallery" of many of
the models produced by the
company, both road-goers and
racers. The 1750 GS of the 1930s,

the 8C 2900 B, the Giulietta, the
Giulia, the 33s, the Alfettas
right up to the most modern 8C
Competizione are just some of the
cars that find a place in this
long catalog in which the
illustrations of Michele Leonello,
the authoritative car designer,
come together with the words of
Lorenzo Ardizio, the expert on the
history of Alfa Romeo.

Sports Cars Illustrated Penguin

Having left motor racing in the early 1950s - at

least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

De Kampioen Irwin Professional Publishing Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology,

information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

El País John Wiley & Sons

Since the book first appeared in 1976, *Methods of Seawater Analysis* has found widespread acceptance as a reliable and detailed source of information. Its second extended and revised edition published in 1983 reflected the rapid pace of instrumental and methodological evolution in the preceding years. The development has lost nothing of its momentum, and many methods and procedures still suffering their teething troubles then have now matured into dependable tools for the analyst. This is especially evident for trace and ultra-trace analyses of organic and inorganic seawater constituents which have diversified considerably and now require more space for their description than before. Methods to determine volatile halocarbons, dimethyl sulphide, photosynthetic pigments and natural radioactive tracers have been added as well as applications of X-ray fluorescence spectroscopy and various electrochemical methods for trace metal analysis. Another method not previously described deals with the determination of the partial pressure of carbon dioxide as part of standardised procedures to describe the marine CO₂ system.

It was in 1919 that Ugo Zagato established Carrozzeria U. Zagato & C., a business that acquired great fame in just a few years among the numerous car manufacturers of the period, first of all Alfa Romeo, which entrusted the Milanese body stylist with designing and building the body of the unforgettable 6C 1750, as it did its 8C 2900 that appeared in the '30s. From then on, the famous marque became synonymous with style - not only in Italy - designing a series of masterpieces including the Lancia Aprilia Sport, the various Panoramic cars of the immediate post-war period, the Aston Martin DB4, the Alfa Romeo SZ and TZ, the Lancias Fulvia, Flavia and Flaminia and many more. From the '90s Zagato re-emerged as an atelier, designing small production run cars and sometimes one-offs for its wealthy clients. Luciano Greggio,

the automobile historian, covers the fascinating story of this prestigious body stylist and has also written other books in the series as well as Zagato. The series, to be published soon, includes books on Touring, Bertone, Pininfarina, Giugiaro and Vignale & Ghia.
