This Alfa 147 Workshop Manual Download, as one of the most working sellers here will certainly be in the midst of the best options to review.

Alfa Romeo manuals and parts catalogs

M-Y Books Limited

Alfa Romeo never published an all inclusive WSM for the Giulia series of automobiles. Instead, they produced a number of individual 'Technical' publications that provided model specific information + individual 'Mechanical Repair' publications that were focused on the overhaul and service of various mechanical and electrical components.

Alfa Sud Veloce Enterprises, Incorporated

Saloon, Hatchback & Sprint Coupe. Does NOT cover 1.7 litre Sprint introduced December 1987. Petrol: 1.2 litre (1186cc), 1.3 litre (1286cc), 1.4 litre (1350cc) & 1.5 litre (1490cc).

ALFA ROMEO 750 & 101 SERIES GIULIETTA 1300cc (1955-1964) & 101 SERIES GIULIA 1600cc (1962-1965) WORKSHOP MANUAL Haynes Publishing

This is a do it ourself workshop manual, it was written for the owner who wishes to maintain his vehicle & carry out the bulk of his own servicing & repairs. Step by step instructions are given of most dismantling, overhauling & assembling operations. Covers Giulia 1300TI, GT Junior 1967-1972, Giulia 1600TI, Super 1962-1972, Giulia 1600 Sprint GT, GTV 1963-1968, Giulia 1600 Spider, Duetto 1962-1968, Giulia 1.6 Super 1972-1975, GT Junior 1.6 1972-1975, GT Junior 1600 1975-1976, 1750 GT Veloce 1968-1972, 1750 Spider Veloce 1968-1972, 2000 GT Veloce 1971-1975, 2000 Spider Veloce 1971-1978. A total of 168 fully illustrated pages. This do-it-yourself Workshop Manual has been specially written for the owner who wishes to maintain his vehicle in first class condition and to carry out the bulk of his own servicing and repairs. Considerable savings on garage charges can be made, and one can drive in safety and confidence knowing the work has been done properly. Comprehensive step-by-step instructions and illustrations are given on most dismantling, overhauling and assembling operations. Certain assemblies require the use of expensive special tools, the purchase of which would be unjustified. In these cases information is included but the reader is recommended to hand the unit to the agent for attention.

Workshop Manual Alfetta Alfa Romeo Veloce

Enterprises, Incorporated

With 340 pages, and more than 500 illustrations and charts, size 8.25 x 10.75 inches, this is possibly the most complete workshop manual for the Alfa Romeo 750 & 101 series of automobiles. It includes: A reprint of the September 1958 factory Workshop Manual (No.637). The 12-page 'Transmission Appendix' from the December 1957 manual (No.611). The 15-page 1962 'Enclosure to the Shop Manual-Technical Characteristics' (No.854) plus the 1963 and 1964 'Technical Characteristics' publications for the 1600cc models (27 pages). Introduced in 1954, the initial 750 Series Giulietta was replaced by the 101 Series Giulietta in 1959. Both the 750 and 101 models were powered by a 1300cc (1290cc) engine. The engine capacity was increased in 1962 with the introduction of a 1600cc (1570cc) unit. Coincident with this engine update, the Giulietta name was changed to Giulia, although they still retained their original 101 Series designation. From 1962 onwards, the updated Giulietta continued to be sold under the Giulia name until they were replaced by the all-new 105 Series Giulia-based models in 1965. As the predominance of the basic mechanical components of the 750 and 101 models remained unchanged during their 1954-1965 production run, the original Giulietta workshop manual was considered adequate and the factory supplemented it with the publication of 'Technical Characteristics' booklets (1963 & 1964) that updated the Factory manual with technical data specific to the 1600cc equipped cars. Timeline of the English language manuals issued by the Alfa factory for the 750 & 101 Series Giulietta and Giulia models: The first English language Workshop Manual (Part No.577 - 600 copies) was issued in May 1957 and it consisted of 14 individual booklets in a ring binder. In addition, a separate booklet numbered 15 was added a little later that was identified as 'Special Repair Data for the 'Sprint Veloce, Spider and Super Spider'. In December 1957, Alfa issued 1000 copies of a softbound workshop manual (Part No.611) that combined the booklets from the May 1957 publication into a single volume. It should be noted that booklet 14 'Special Tools and Equipment' was omitted from this edition and that the images are of poor quality. In September 1958, another 1000 copies of a softbound single volume manual (Part No.637) was issued and the images in this manual are almost photo quality. This edition also included the previously missing 'Special Tools' section.

However, for some unknown reason the 12-page appendix to the transmission section from the December 1957 edition was omitted. This same part number (637) was reprinted by the factory in September 1961 (1000 copies). Finally, in November 1962, Alfa issued 2000 copies of a 15-page booklet 'Enclosure to the Shop Manual - Technical Characteristics' (Part No.854). This booklet expanded the technical data for the 1300cc models that was previously included in 'Technical Specifications' section of both the ring bound and softbound workshop manuals.

However, in 1962, the Giulietta sport models: Sprint, Sprint Special and Spider were fitted with the new 1600cc engine and the Giulietta Series 101 name was dropped but they continued to be sold under the Giulia name (as 101 Series vehicles) until they were replaced by the all-new 105 Series Giulia-based models in 1965. Consequently, for the sake of completeness, the 20-page October 1963 'Technical Characteristics' booklet (Part No. 955 -1000 copies) for the 1600cc Giulia Ti, Spider & Sprint and the 7-page October 1964 'Technical Characteristics' for the Giulia Spider Veloce should be a required addition to this list of manuals for the 750 and 101 Series models.

The Alfa Romeo Spider Owners Work Manual Haynes Publications
