Now in paperback for the first time, here is the classic version of a car lover's fairy tale: You look into an old abandoned barn or garage or warehouse--and there's the car you've searched for your whole life. Here are the true stories of people who found their dream cars in the most unlikely places: A man finds one of three King Cobras ever built in a junkyard in South Carolina; another discovers a rare Delahaye in a barn in the former Czech Republic; yet another answers an obscurely written ad in a local paper to discover a Triumph TR3 that had run the Daytona 24 Hour race in the early 1960s. The list goes on and on, and the stories never get old. Relive the excitement, glory in the astounding discoveries, and revel in the cars that keep dreams alive. See Tom Cotter, author of Motorbooks "In the Barn" series, interviewed by Jay Leno on JayLenosGarage.com: <http://www.jaylenosgarage.com/video/jays-book-club-the-hemi-in-the-barn/1237422/>

Changing Times Porter Press

Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand

experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment procedure, suspension modifications for road and track, electrical system improvements, flowbench diagrams, dyno plots, and much more!

World Aviation Directory

With nearly 2.7 million cars produced, Mercedes' W123 series was hugely successful. As well as the practical saloon (sedan), Mercedes offered a stylish coupe and a roomy estate (wagon), which was built in-house for the first time. Often considered the marque's best-engineered cars of all time, they are increasingly sought after as modern classics, yet many are still suitable to drive every day. From the taxi ranks of Germany to the dusty roads of North Africa, many of these cars have led a hard life, and examples in good condition are becoming ever more difficult to find. This guide will help you learn about the differences between models, and what to look for when buying. What are the true running costs, and what issues - with the mechanicals, body or interior - should you be wary of? Is a restoration worth considering? This handy guide will take you step-by-step through the process of finding and evaluating a good W123 and making a successful purchase. Essential data and information about clubs and specialists will help you look after and enjoy your W123 today.

How to Build Your Own Supercar

From 1904 to the present, The Buick: A Complete History is the authoritative, intimately fascinating story superbly told by two of the most respected automotive historians, each having devoted more than a decade to researching, interviewing, documenting and recording one of the great sagas of our time. Here is a book that has become the most treasured and inexhaustible reference work on this great marque. And now, to commemorate Buick's centennial, the new sixth edition expands to include information through model year 2004. Eight sections of Appendices include chapters on Buick racing cars; the Buick in Hollywood; the custom-bodied Buick; the Royal Buicks; heraldry and mascots of the marque; Buick around the world, with new information on ventures into China. There can be no finer Buick book for the office, the showroom, or home library. For the Buick builder, the enthusiast, the collector, the dealer, the owner, it will be the bible on Buick.

The AOPA Pilot

Whitaker's Books in Print

The Alfa Romeo T33/TT/3 was produced by Alfa's Autodelta racing department, under the guidance of Carlo Chiti, to compete in the 1972 World Championship for Makes. Hopes were high, as the previously dominant Group 5 racers (including the Porsche 917s and Ferrari 512s) had been outlawed in favour of 3-litre Group 6 cars, such as the Alfa. However, the Alfas struggled to take the fight to the well-developed and reliable Ferrari 312PBs, though scored regular podium positions. The highlight was a second place in the epic Targa Florio Sicilian road race, where Helmut Marko put in a stirring drive to come within seconds of victory. Marko was driving chassis 115.72.002, the most successful of the T33/TT/3 chassis Alfa Romeo T33/TT/3 tells the full story of the T33/TT/3, with an emphasis on the fascinating history of chassis 115.72.002, which competed in seven world championship rounds in 1972. The car would later have a unique second career on the race circuits and hill climbs of Greece, before racing in Japan and South Africa prior to an eventual return to Europe, where it is still a frequent competitor in historic events. The unique history and success of 115.72.002 makes it a worthy addition to Porter Press's acclaimed Exceptional Cars series.

Readers' Guide to Periodical Literature

"Amazing self-build techniques for builders of supercars, kit-cars, racing cars, hot-rods and custom cars. Includes glassfibre moulding techniques, vacuum-forming polycarbonates, creating interior trim, adapting standard mass-production components and much, much more."--t.p.
