commentators often cite the Alfa Romeo Arna as a perfect example of how not to combine the talents of two manufacturers. The world sat up and took notice when Alfa Romeo announced its forthcoming partnership with Nissan in October 1980 - the

combination of the two had the potential to build something special. By 1986, Alfa Romeo's parent company, the Italian government-owned Istituto per la Ricostruzione Industriale was suffering from heavy losses, and IRI president Romano Prodi put Alfa Romeo up for sale, with Fiat ultimately emerging as the new owner of Alfa. Fiat's first decision was to cease Arna production owing to its poor reputation and poor sales and to terminate the unsuccessful Alfa Romeo Nissan alliance. Production ceased in 1987, with Fiat intending to

strengthen the competitiveness of the Alfa Romeo 33 as Alfa's entry in that segment. By this time, Nissan had set up a European operation of its own at Nissan Motor Manufacturing UK in Sunderland, which became hugely successful. 105 Series Spider Haynes Publishing Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for

Zuvor vollig unbekannte Zulieferer haben es geschafft, durch geschicktes Branding der von ihnen gelieferten Ingredients einen Nachfragesog zu generieren. Und: Endprodukthersteller wurde es in der Folge ermöglicht, durch

Die enormen Potenziale von Ingredient Branding erkennen immer mehr Unternehmen, ohne genau zu wissen, wie sie eine erfolgreiche Ingredient Branding-Strategie fuhren konnten. Die Frage nach den Erfolgsdeterminanten von Ingredient Branding-Strategien wird im vorliegenden Buch sowohl aus wissenschaftlicher als auch aus praktischer Perspektive eindrucksvoll und praxisnah beleuchtet.
