When Richard G. Hatcher became the first black mayor of Gary, Indiana in 1967, the response of Gary's white businessmen was to move the entire downtown to the suburbs, thereby weakening the city core. Meanwhile, white business and institutional leaders in Atlanta, Detroit, and Newark worked with black mayors heading those majority-black cities to rebuild their downtowns and neighborhoods. Why not Gary? Robert A. Catlin, who served as Mayor Hatcher's planning advisor from 1982 to 1987, here analyzes the racial conflicts that tore Gary apart. He asserts that two types of majority-black cities exist. Type I -- including Atlanta, Baltimore, Detroit, and Newark -- have Fortune 500 corporate headquarters, major universities, and large medical centers -- institutions that are placebound -- and their leaders must work with black mayors. Type II cities like Gary lack these resources; thus, their white leaders feel less compelled to cooperate

with black mayors. Unfortunately in Gary's case, black politicians and white executives fell victim to pettiness and mistrust, and, as a result, Gary and the entire northwest Indiana region suffered. Racial Politics and Urban Planning is required reading for citizens interested in urban affairs. Leaders in cities such as Albany and Macon, Georgia; Monroe, Louisiana; Mount Vernon, New York; and Pine Bluff, Arkansas, should also take note. Those cities have just become majority black and are in the Type II category. Will they learn from Gary, or are they doomed to repeat its mistakes?

Alfa Romeo 916 GTV and Spider Crowood

This is a true story of a United Automobile Worker's journey to her third-shift job. Construction work on her highway exit forced her to exit in Buena Vista, Michigan, where she encountered two corrupt police officers. She was stopped with no warrants or priors; she was not speeding, and did not possess drugs or alcohol. All of her constitutional rights were violated and she was jailed unjustly. She was never informed why she was going to jail. After meeting Martin Luther King, Jr. on September 11, 1977, she fought the corrupt legal system with union pride for her civil rights.

Maryam Baouardy is a daughter of Galilee, from a very poor family. At the age of three, she lost her father and mother and was adopted by her uncle. She never learned how to read or write, but her life

became a remarkable succession of supernatural manifestations, worthy of Catherine of Siena or Teresa of Avila, from the stigmata to singular battles against Satan. From where does she draw the heavenly wisdom, childlike yet strong, that made her loved by all? Where does this burning love that consumes her come from? For her, just as for St. Paul, "to live is Christ". This beautiful "Lily of Palestine" became Sr. Maryam of Jesus Crucified in the Carmelite Order. Both humble guardian of the grille and formidable forewoman, she was often visited by Jesus and Mary. The words she transmits from them, pearls of great price, are significant for us today as they enlighten the future of our broken world. Maryam died in Bethlehem in her 33rd year, on August 26, 1878, shortly after the birth of Thérèse of Lisieux in France. Pope John Paul II beatified her on November 13, 1983. It is impossible to know Maryam without falling in love with her, without yearning for holiness, at her school.

A definitive book for students of dance and movement studies, Labanotation is now available in a fourth edition, the first complete revision of the text since 1977. Initiated by the movement genius Rudolf Laban, and refined through fifty years of work by teachers here and abroad, Labanotation, the first wholly successful system for recording human movement, is now having the effect on ballet and other forms of dance that the perfection of music notation in the Renaissance had on the development of music. This book makes it possible to record accurately, for study and reconstruction, the great dance creations of the theater, as well as such diverse activities as time/motion studies for industry, personnel assessment and physical therapy. So comprehensive that it can indicate even facial expressions, the system is also simple enough for a child to learn easily as an integral part of athletic or dance training.

The Native American Higher Education Initiative (NAHEI), a W.W. Kellogg Foundation project, has supported the development and growth of centers of excellence at Tribal Colleges and Universities across the United States. These are centers of new thinking about learning and teaching, modeling alternative forms of educational leadership, and constructing new systems of post-secondary learning at Tribal Colleges and Universities. This book translates the knowledge gained through the NAHEI programs into a form that can be adapted by a broad audience, including practitioners in pre-K through post-secondary education, educational administrators, educational policymakers, scholars, and philanthropic foundations, to improve the learning and life experience of native (and non-native) learners.

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.
