From the Bun Vac 6000 to the Mind Manipulation-o-matic Brooklands Books Limited

The NSX was announced in 1989 and introduced in 1990. It was a technical tour de force v aluminum body structure and suspension, mid-mounted quad-cam 24-valve V6 engine. However, Honda was supposed to be a family car maker and not a producer of supercars, and the NSX did not have the pedigree of a Porsche or Ferrari. Honda persevered adding a targa top and automatic options. Nevertheless the NSX was more than a pretender to the supercar crown by offering reliability and drivability. This is a book of contemporary road and comparison tests, specification and technical data, driver's impressions. Includes: F-Matic, NSX-T, NSX-R, NSX-T F-Matic, Automatic.

Engine Management Veloce Publishing Ltd

Revised and updated to 2007, "Alfa Romeo - Production Cars" was first published in 1996, written by two experts: Stefano d'Amico (President of RIAR, the Alfa Romeo Italian Register) and Maurizio Tabucchi (consultant at both RIAR and ASI, the Italian Vintage Automobile Association). This fascinating story of Alfa Romeo's cars is told model by model by a text that results from precise reconstruction of the facts, enriched with detailed technical specifications (chassis numbering included) and rare archive illustrative material. All of Alfa's recent production can also be found in the book, starting with the 155, the last car in the previous edition, the following 156, 145, 146, 147, 166, 159, up to the last "Brera" and "Spider"; A long-awaited new edition that no Alfa Romeo fan should miss. Written in English and Italian.

A Hands-On Guide to Getting the Most From Your Alfa Haynes Publications

This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner.

V-6 Performance Motorbooks International

This is a collection of informatively captioned photographs detailing the birth and development of Alfa Romeo saloon cars. Indeed, back in the 1950s and 60s, they were perceived as the benchmark sports saloons and set the pace long before the arrival of such other sporting models as those from the BMW 3-series. This book follows the story of Alfa Romeo from the early days of production in 1910, through a multitude of racing successes, to the company's emergence as a builder of world-class sports and touring machines in the 1950s.

John Tipler explores the development of the four-door saloon cars during the 1950s and 60s, from the 1900 Giulietta, Giulia TI and Super Berlinas to the Alfetta and Alfasud saloons of the 1970s and the 33 and 75 models of the 1980s. The author also describes the new generation of cars, which emerged in the 1990s, including the striking 156 that instantly gained the coveted Car of the Year Award.

Alfa Romeo Owners Bible Veloce Enterprises, Incorporated

The story of Alfa Romeo, the prestigious Italian marque which created some of the most memorable cars of all time during its 100 year-plus history, is told by specification after specification in a "virtual gallery" of many of the models produced by the company, both road-goers and racers. The 1750 GS of the 1930s, the 8C 2900 B, the Giulietta, the Giulia,

the 33s, the Alfettas right up to the most modern 8C Competizione are just some of the cars that find a place in this long catalog in which the illustrations of Michele Leonello, the authoritative car designer, come together with the words of Lorenzo Ardizio, the expert on the history of Alfa Romeo.

The Essential Buyer's Guide Veloce Publishing Ltd

At last. A practical handbook on how to choose and operate datalogging equipment and get the full benefit from what it tells you. Aimed at the amateur competitor, it covers hardware and software and takes over where the manufacturers instructions run out. It shows how to understand what the data is telling you and how to use it to go faster. It covers standard information screens and shows you how to create your own charts and tables that will illuminate the performance of both the car, the driver and the team. On the way, it deals with systems management issues, how to get the quick and easy payoffs, and how to benefit in the long term. It explains how sensors work, how to fit them so they survive and to calibrate them. The final chapter is a Field Guide designed to help you run the system, trouble-shoot hardware and software problems and quickly interpret the output of the graphs under pressure during an event.

Born to win Brooklands Book Limited

Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment procedure, suspension modifications for road and track, electrical system improvements, flowbench diagrams, dyno plots, and much more!

Romeo car production started again with the Torpedo 20-30 which became the first car to carry the new logo. The company produced solid road cars as well as successful race cars. In 1932 Alfa Romeo was rescued by the Italian government and Alfa subsequently became a 'national emblem', and in the years between 1934 and 1939 they built 1,994 cars. A portfolio of road tests plus historical and contemporary articles drawn from the worlds leading motoring journals covering Alfa Romeo's classic saloons, sports and racing cars produced between 1920 and 1940.
