This is a collection of informatively captioned photographs detailing the birth and development of Alfa Romeo saloon cars. Indeed, back in the 1950s and 60s, they were perceived as the benchmark sports saloons and set the pace long before the arrival of such other sporting models as those from the BMW 3-series. This book follows the story of Alfa Romeo from the early days of production in 1910, through a multitude of racing successes, to the company's emergence as a builder of world-class sports and touring machines in the 1950s. John Tipler explores the development of the four-door saloon cars during

the 1950s and 60s, from the 1900 Giulietta, Giulia TI and Super Berlinas to the Alfetta and Alfasud saloons of the 1970s and the 33 and 75 models of the 1980s. The author also describes the new generation of cars, which emerged in the 1990s, including the striking 156 that instantly gained the coveted Car of the Year Award.

At last. A practical handbook on how to choose and operate datalogging equipment and get the full benefit from what it tells you. Aimed at the amateur competitor, it covers hardware and software and takes over where the manufacturers instructions run out. It shows how to understand what the data is telling you and how to use it to go faster. It covers standard information screens and shows you how to create your own charts and tables that will illuminate the performance of both the car, the driver and the team. On the way, it deals with systems management issues, how to get the quick and easy payoffs, and how to benefit in the long term. It explains how sensors work, how to fit them so they survive and to calibrate them. The final chapter is a Field Guide designed to help you run the system, trouble-shoot hardware and software problems and quickly interpret the output of the graphs under pressure during an event.

Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car,

which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

The NSX was announced in 1989 and introduced in 1990. It was a technical tour de force v aluminum body structure and suspension, mid-mounted quad-cam 24-valve V6 engine. However, Honda was

supposed to be a family car maker and not a producer of supercars, and the NSX did not have the pedigree of a Porsche or Ferrari. Honda persevered adding a targa top and automatic options. Nevertheless the NSX was more than a pretender to the supercar crown by offering reliability and drivability. This is a book of contemporary road and comparison tests, specification and technical data, driver's impressions. Includes: F-Matic, NSX-T, NSX-R, NSX-T F-Matic, Automatic. The company that became Alfa Romeo in 1920 was founded as Societa Anonima Italiana Darracq in 1906 by the French automobile firm of Alexandre Darracq. When the company name was changed to Alfa Romeo car production started again with the Torpedo 20-30 which became the first car to carry the new logo. The company produced solid road cars as well as successful race

cars. In 1932 Alfa Romeo was rescued by the Italian government and Alfa subsequently became a 'national emblem', and in the years between 1934 and 1939 they built 1,994 cars. A portfolio of road tests plus historical and contemporary articles drawn from the worlds leading motoring journals covering Alfa Romeo's classic saloons, sports and racing cars produced between 1920 and 1940.
