NEW YORK TIMES

BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the

careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

For over 50 years, students and their parents have relied

on this handbook for complete facts about colleges throughout the country. The only one-volume guide to all accredited colleges, both two- and four-year schools, the guide provides up-to-date information on admission policies, acceptance rates, financial aid, campus life, majors, and more.

Net College Univ of California Press

The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in

producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans'

viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.

Colleges that Change Lives

Penguin Mass Market

Between the years 1918 and 1920, influenza raged around the globe in the worst pandemic in recorded history, killing at least fifty million people, more than half a million of them Americans. Yet despite the devastation, this catastrophic event seems but a forgotten moment in our nation's past. *American Pandemic* offers a

much-needed corrective to the multiple perspectives to silence surrounding the influenza outbreak. It sheds light on the social and cultural history of Americans during the pandemic, uncovering both the causes of the nation's public amnesia and the depth of the quiet remembering that endured. Focused on the primary players in this drama--patients and their families, friends, and community, public health experts, and health care professionals--historian Nancy K. Bristow draws on multiple perspectives to highlight the complex interplay between social identity, cultural norms, memory, and the epidemic. Bristow has combed a wealth of primary sources, including letters, diaries, oral histories, memoirs, novels, newspapers, magazines, photographs, government documents, and health care literature. She shows that though the pandemic caused massive disruption in the most basic patterns of American life, influenza did not create long-term social or

cultural change, serving instead to reinforce the status quo and the differences and disparities that defined American life. As the crisis waned, the pandemic slipped from the nation's public memory. The helplessness and despair Americans had suffered during the pandemic, Bristow notes, was a story poorly suited to a nation focused on optimism and progress. For countless survivors, though, the trauma never ended, shadowing the remainder of their lives with memories of loss. This book

lets us hear these long-silent voices, reclaiming an important chapter in the American past.

The Lost Worlds of the 1918 Influenza Epidemic College Board

Well-known historian Gary Ostrower has made an exhaustive study of archival material to present this comprehensive, judicious, and often wry examination of the relations between a world power and a body of delegates representing the world. Using the administrations of ten American presidents as his chronological framework, and incorporating his intimate knowledge of similar

global organizations, Ostrower analyzes all the discords and agreements between the United States and the United Nations that have shaped world history in the past half-century.

Information Please Almanac, Atlas and Yearbook Princeton Review

In the two generations before World War I, Germany emerged as Europe's foremost industrial power. The basic facts of increasing industrial output, lengthening railroad lines, urbanization, and rising exports are well known. Behind those facts, in the historical shadows, stand millions of anonymous men

and women: the workers who actually put down the railroad ties, hacked out the coal, sewed the shirt collars, printed the books, or carried the bricks that made Germany a great nation. This book contains translated selections from the autobiographies of nineteen of those now-forgotten millions. The thirteen men and six women who speak from these pages afford an intimate firsthand look at how massive social and economic changes are reflected on a personal level in the everyday lives of workers. Although some of these autobiographies are

familiar to specialists in German labor history, they are virtually unknown and inaccessible to the broader audience they deserve. This book provides translations that are at once useful, interesting, and entertaining to a wide range of historians, students, and general readers.

Fast Track: U.S. History
Human Development Report
**** Produced in collaboration with the American Council on

Education. Previous editions are cited in BCL3 and Guide to Reference Books. Arranged by state, some 1,900 institutions are covered, including 58 for the first time. Material comes directly from the institutions themselves in response to a questionnaire. Entries provide both the essential statistical data (tuition, room, board, admissions requirements, financial aid, enrollments) and other information important to decision making (e.g. student life, library holdings, physical plant, study abroad programs). Enhancing the institution profiles are sections on foreign

students at US institutions, professional education, and the history of higher education in the US, among other topics. Annotation copyrighted by Book News, Inc., Portland, OR *The United Nations and the United States* iUniverse When it first appeared USA Today called this book "the guide that doesn't follow a textbook approach to college life." The Best 310 Colleges is based on The Princeton Review's student surveys--the largest campus surveys in the nation. More than 59,000 students answer

questions on everything from academics to campus life. Topics include: the quality of teaching, dorms and dining hall fare, campus politics (left or right and conservative or liberal), whether the student body is diverse or homogeneous, tolerant or intolerant (of race/class relations and of gay students), and high or low in its use of beer, liquor, and marijuana. In fact this book has caused schools across the country to change their food, campuses and drinking policies. Also included is information concerning admission and financial aid policies, student body demographics, average recentered SAT scores and "What's Hot/What's Not" as well as the Counselor-O-Matic, an easy-to-use (if highly unscientific) guide to your chances of getting into each of the top 310 colleges by calculating your "desirability rating" and comparing it to each school's "selectivity rating." Here's a sampling of what students have to say: "This school is filled with wealthy, well-

dressed egomaniacs who are it's either bland or sickening.
about as socially conscious as You're lucky if they don't
Marie Antoinette." "I'm screw up the bread."
premed and there's no place I "Socially, the surrounding
would rather be. The area is so dead that the
academics are a killer, no Denny's closes at night."
joke, but for those few who "Girls over 5'8" watch
survive, the world is their out--for some reason, guys
oyster." "If you're not here have munchkin blood in
Caucasian, the adjustment them or something."
here is tremendous." "Since
this is a Jesuit institution, not
all viewpoints get expressed,
particularly liberal ones
about gays and premarital
sex." "You have to be smart
about where you go at night."
"The food here is really bad;
