Review--Exambusters Flashcards Barrons Educational Series

"Less is more." When students have only six to eight weeks to review for the Regents exam and they have to remember so many topics, what can the teacher offer to help? They won't be able to review the 800 page textbooks or even the 400 page review books. Our students need an efficient review kit that is concise, yet contains all the important mathematical concepts and their applications. This book will help students remember all the key topics and build their problem solving skills through the use of examples. This review book is geared towards helping students succeed with high scores on the Regents exams. I have already used these review sheets with my own Regents classes and I have seen firsthand that their performance is significantly higher than the statewide average. Both teachers and students like these review sheets because they are practical. This book contains three courses in one: Integrated Algebra 1, Geometry, and Algebra 2/Trigonometry. It also serves as a handy reference guide for math teachers and college students.

Algebra 2/Trigonometry Createspace Independent Publishing Platform

More than just a statutory compilation, New York Education Laws is the best way to keep up-to-date with the broad spectrum of laws impacting education in New York. With commentary on the latest laws

by Thomas M. Hamilton, Esq., this volume provides readers with handy summaries of important caselaw, summaries of decisions of the Commissioner of Education, and summaries of new legislation. New York education laws are constantly in flux, and the new edition provides you with an efficient and innovative way to keep abreast of the latest changes. New York Education Laws is a compilation of the entire text of Education Law Titles I-VIII extracted from the New York Consolidated Laws, along with many other related statutes that touch on the administration of education in New York. It includes important topics such as school district organization, taxation and financial administration, special schools and instruction, and state and city colleges and institutions. Now, school principals, administrators, educational organizations, attorneys and state officials will have access to all education laws they need in one volume.
