In 1942, the Croatian government under Bosnian Croat President Ante Pavelic and Bosnian Muslim Vice President Dzafer Kulenovic destroyed the only synagogue in Zagreb. The synagogue located on 7 Prashka Street and Chanukkiyah had been built in 1867 in the center of Zagreb. The architect of the synagogue had been Franjo Klein. The Jewish presence in Croatia went back to 1806. Zagreb had a Jewish population of 12,000 before the Holocaust.

The disintegration of Yugoslavia in the early 1990s ended the Yugoslavian Federation, which for nearly fifty years had

succeeded in preserving a delicate coexistence among the ethnic, religious, and national components contained within it. Following this, the Balkans became a violent arena of confrontation due to these warring factions. Islamic Terror and the Balkans describes and analyzes the growth of radical Islam in the Balkans from its inception during the years of World War II to the present. Shay's account shows how the Bosnian War between the Muslims and the Serbs provided the historical opportunity for radical Islam to penetrate the Balkans, at a time when the Muslim world, headed by Iran and the various Islamic terror organizations, including Al-Qaida, came to the aid of the Muslims in Bosnia. In the framework of the mobilization of these entities in aiding the Muslim side in the conflict, the operational and organizational infrastructure of Iranian intelligence and the Revolutionary Guards was established, as well as those operated by other Islamic terror

---

organizations. When war in Bosnia ended, terrorist infrastructures remained in the Balkans and served as a basis for these entities' intervention in the confrontation that developed in the Balkans in the late-1990s, specifically in Kosovo and Macedonia. Today, the Balkans serve as a forefront on European soil for Islamic terror organizations, which exploits this area to promote their activities in Western Europe, Russia, and other focal points worldwide. Shay's analysis of terror activity in the aftermath of the September 11 attacks and exposure of terror cells throughout the world, and particularly in Europe, attest to the increasing involvement of the "Balkan alumni" and of the terrorist infrastructure from this area in creating global terror activity.

By all measures, the late twentieth century was a time of dramatic decline for the Islamic

world, the Ummah, movement of particularly its Arab contemporary Islamic heartland. Sober renewal, emerged as Muslim voices such a resilient and regularly describe powerful their current state transnational force as the worst in the and what implications 1,400-year history of does it have for the Islam. Yet, precisely West? In One Islam, at this time of Many Muslims Worlds unprecedented Raymond W. Baker material addresses this vulnerability, Islam question. Two things has emerged as a are clear, Baker civilizational force argues: Islam's strong enough to unexpected strength challenge the in recent decades imposition of does not originate Western, particularly from official American, political, economic, homogenizing power on or religious Muslim peoples. This institutions, nor can it be explained by paradox of Islam focusing exclusively today: at a time of on the often-criminal such unprecedented assertions of weakness in one violent, marginal sense, how has the groups. While Islamic Awakening, a extremists monopolize broad and diverse the international

press and the scholarly journals, those who live and work in the Islamic world know that the vast majority of Muslims reject their reckless calls to violence and look elsewhere for guidance. Baker shows that extremists draw their energy and support not from contributions to the reinterpretation and revival of Islamic beliefs and practices, but from the hatreds engendered by misguided Western policies in Islamic lands. His persuasive analysis of the Islamic world identifies centrists as the revitalizing force of Islam, saying that they are

responsible for constructing a modern, cohesive Islamic identity that is a force to be reckoned with.

### Islam, History and Other Observations Strategic Book Publishing

The book is about the peace implementation process in Bosnia-Herzegovina viewed, or interpreted reasonably, as a continuation of war by other means. Twenty years after the beginning of the Dayton peace accords, we need to summarize the results: the author shares the general agreement in public opinion, according to which the process is a failure. Pehar presents a broad, yet sufficiently detailed, view of the entire peace agreement implementation that preserves 'the state of war,' and thus encourages the war-prone attitudes in the parties to the agreement. He examines the political and narratological underpinnings to the process of the imposed international (predominantly USA)

---

interpretation of the Dayton constitution and peace treaty as a whole. The key issue is the – perhaps only semi-consciously applied – divide ut imperes strategy. After nearly twenty years, the peace in document was not translated into a peace on the ground because, with regard to the key political and constitutional issues and attitudes, Bosnia remains a deeply divided society. The book concludes that the international supervision served a counter-purpose: instead of correcting the aberration and guarding the meaning that was originally accepted in the Dayton peace treaty, the supervision approved the aberration and imposed it as a new norm under the clout of 'the power of ultimate interpretation.'

A Concise History of Bosnia integrates the political, economic and cultural history of this fascinating, beautiful, but much

misunderstood country.

Drawing on a wide range of primary and secondary literature, this objective and engaging history covers developments in the region up to the present day and offers an accessible interpretation of an often contested and controversial history. Importantly, Cathie Carmichael looks at Bosnia over the long term, moving away from a narrow focus on the 1990s to offer a historical rather than a nationalist perspective on events. Integrated within the narrative account, there is a particular focus on the themes of culture and religion, and the effect of geography and regional changes in the landscape on Bosnian history. Engaging and authoritative, the book succinctly explores how Bosnia has changed over

---

many centuries, and focuses on the dynamic and creative aspects of Bosnia's past as well as the darker elements.

Struggling against high odds, Yugoslavia managed to survive from its inception in 1918 until the early 1990s. But now, tragic ethnic and regional conflicts have irrevocably fragmented the country. In his timely book, Lenard Cohen explores the original conception and motives underlying the Yugoslav idea, looking at the state's major problems, achievements, and failures during its short and troubled history. Cohen answers a broad range of questions concerning contemporary Yugoslavia: How did the state plunge from its position as a positive model to an essentially negative case of socialist reform? What measures for recovery were proposed by the country's ethnically and regionally segmented one-party elite? What were the reasons for the eventual

abandonment of reform socialism, the elimination of the single party's monopoly, and the rapid delegitimation of the country's federal political institutions? What programs have been offered by the noncommunist and ?born again? communist leaders elected to power during the revival of multiparty pluralism in 1990? How did their efforts to achieve regional and ethnic sovereignty place the country in such a precarious and ultimately fatal position? The concluding chapters of the book offer an analysis of the causes and horrifying consequences of the military conflict and civil war from 1991 to 1994, including a discussion of the impotent efforts at peacekeeping, the dynamics of the complex and savage struggle in Bosnia-Herzegovina, and an examination of the problems faced by Yugoslavia's successor states.

When the war in Bosnia-Herzegovina broke out a baffled world sought

explanations from a range of experts who offered a variety of reasons for the conflict. The author of this study takes Bosnian affairs seriously and in so doing makes it much easier to grasp why the war occurred. On Communism and Nazism Claritas Books Sarajevo Under Siege offers a richly detailed account of the lived experiences of ordinary people in this multicultural city between 1992 and 1996, during the war in the former Yugoslavia. Moving beyond the shelling, snipers, and shortages, it documents the coping strategies people adopted and the creativity with which they responded to desperate circumstances. Ivana Mašek, an anthropologist who grew up in the former Yugoslavia, argues that the division of

Bosnians into antagonistic ethnonational groups was the result rather than the cause of the war, a view that was not only generally assumed by Americans and Western Europeans but also deliberately promoted by Serb, Croat, and Muslim nationalist politicians. Nationalist political leaders appealed to ethnoreligious loyalties and sowed mistrust between people who had previously coexisted peacefully in Sarajevo. Normality dissolved and relationships were reconstructed as individuals tried to ascertain who could be trusted. Over time, this ethnography shows, Sarajevans shifted from the shock they felt as civilians in a city under siege into a "soldier" way of thinking, siding with one group and blaming others for the war.

---

Eventually, they became disillusioned with these simple rationales for suffering and adopted a "deserter" stance, trying to take moral responsibility for their own choices in spite of their powerless position. The coexistence of these contradictory views reflects the confusion Sarajevans felt in the midst of a chaotic war. Mašek respects the subjectivity of her informants and gives Sarajevans' own words a dignity that is not always accorded the viewpoints of ordinary citizens. Combining scholarship on political violence with firsthand observation and telling insights, this book is of vital importance to people who seek to understand the dynamics of armed conflict along ethnonational lines both within and beyond

Europe.

sense of the beauty and universality of Islam. Robin Woodsworth Carlsen For centuries Europe has benefitted from Islam, often without acknowledging it and without giving anything in return. Now with the publication of Islam Between East and West, Europe has begun to pay its debt to Islam. Rational and yet not insulting to the emotions, it exalts the spirit without denigrating the body. But what stands it apart as a landmark is its transcendental wisdom expressed in a style inherent to all noble ideas. Since the violent events of the Bosnian war and the revelations of ethnic cleansing that shocked the world in the early 1990s, Bosnia has become a metaphor for the new ethnic nationalisms, for the transformation of warfare in the post-Cold War era, and for new forms of peacekeeping and state-building. This book is unique in offering a re-examination of the Bosnian case with a 'bottom-up' perspective. It gathers together cultural anthropologists and other social scientists to consider the specificities of the Bosnian case. However, the book also raises

---

broader questions: what are the consequences of internecine violence and how should societies attempt to overcome them? Are the uncertainties and the transformations of Bosnian post-war society due entirely to the war, or are they related to wider processes encompassing post-communist Europe as a whole? And are the difficulties experienced by international state-building operations mainly due to distinctive features of the local societies or are they due to the policies promoted by the international community itself?

Brief Historical Background The US Congressional Research Service report states that Al-Qaeda cells have currently been identified and have also been objectively suspected in at least thirty-four countries and their affiliated geo-political territories

Moreover, this same report dated September 10th 2001 released in Washington D.C. on September 13th 2001, only two days after the September 11th terrorist attacks perpetrated against America 's World Trade Center state Osama bin Laden is estimated to have inherited roughly \$300- million dollars. Although some terrorist experts believe bin Laden actually has far less than this figure presently, and he is no longer reliant on his personal fortune to finance Al-Qaeda's activities, they claim that alternately he is employing a variety of both legal and illegal business endeavors as fronts for financing his terrorist activities. Over the previous six years, Al-Qaeda 's network led by, Osama bin Laden, has evolved from merely a small regional threat beginning with USW troops stationed in the Persian Gulf, into an all out global threat to international peace

and perpetual human survival including a direct threat especially directed against United States citizens and United States associated national security interests. In constructing Al-Qaeda, bin Laden has assembled a coalition of disparate radical Islamicist groups comprised of a variety of ethnic nationalities, all to work towards one common goal which is in Bosnia&Herzegovina, the total ethnic expulsion of everyone non-Muslim so that only Islamist racists are left as the overall controlling influence of these future ethnically pure Islamic Muslim-inhabited lands which once were multi-ethnic as America.
