"This essay reveals how a global "New Drug History" has evolved over the past three decades, along with its latest thematic trends and possible next directions. Scholars have long studied drugs, but only in the 1990s did serious archival and global study of what are now illicit drugs emerge, largely from the influence of the anthropology of drugs on history. A series of key interdisciplinary influences are now in play beyond anthropology, among them, commodity and consumption studies, sociology, medical history, cultural studies, and

transnational history. Scholars connect drugs and their changing political or cultural status to larger contexts and epochal events such as wars, empires, capitalism, modernization, or globalizing processes. As the field expands in scope, it may shift deeper into non-western perspectives, a fluid historical definition of drugs; environmental concerns; and research on cannabis and opiates sparked by their current transformations or crises"--

In this crazy old fast-moving world, it's nice to slow down, chill out, look around, and sip your way through a great cup of coffee. Maybe two. It's nice to have somewhere to go where the rough edge of life can't get to you...and the smooth edge can give you all the time and space you need to be with the people you want to be with. Love & Coffee is one of those rare creatures: a

story about emotions and taste buds. About all the ups and downs of life squeezed into an ongoing chronicle and split into fascinating five minute reads. Or fifteen if you take it nice and slow. Perfect whether you have a short attention span...or a long one. It's a pick-me-up, put-me-down, never-lose-your-place kinda book about romance and coffee beans. About feeling good, trying not to feel bad, and listening to the kind of music that puts problems on the back burner, even if only for a little while. It's about looking back, looking forward, and looking right here, right now. About love won, love lost, love desperately needed, even love out of sight but definitely not out of mind. It's about great Espressos, Cappuccinos, Lattes, and Americanos. Intense relationships and casual friendships. Strangers who meet for half an hour then go their separate ways. And couples who mate for life and go everywhere together. Love & Coffee is a sanctuary. One packed full of smiles and laughter, tears and heartaches, peace and quiet, passions and conversations. And good old fashioned thinking. On the outside, it might seem like the story of

an ordinary city centre coffee shop. On the inside, it's a million miles away from ordinary. Maybe two. And right at its heart, serving up the best damned drink on the planet, is Little Italy.

Someone who doesn't take any crap, never turns away anyone in need, and always seems to know more about everyone else than she lets on. So come in and join me. Sit yourself down. Warm yourself up. See the world through my eyes...

The book ecosystem is radically changing, and libraries must change with it. This book tackles the controversial discussion about eBooks and explores librarian-driven solutions and visions for the future of libraries in the 21st century. The eBook Revolution: A Primer for Librarians on the Front Lines is exactly what its title promises: an essential resource for librarians facing the formidable task of coordinating the library-wide

transition to eBooks and fielding questions from patrons about eBooks on a daily basis. After an introduction that covers the basics of eBooks and current eBook technology, the author puts things into perspective, documenting the changes that have occurred over the past decade. She also delves into important eBook issues, identifying librarian-driven solutions and providing glimpses of what libraries in the near future will likely be like. The book examines perennially critical issues such as accessibility, resource sharing, and the digital divide within the context of eBook technology and provides a clear framework for discussing eBooks, thereby enabling readers to make informed decisions regarding their own organizations.

Follow the author on his global quest to meet the workers that nurture, harvest, and hunt our food, as he works alongside them—loading lobster diving boats in Nicaragua, harvesting bananas in Costa Rica, lugging cocoa beans in Ivory Coast with a modern-day slave, picking coffee

beans in Colombia and hauling tomatoes in Indiana. This new edition includes a study guide, a deeper explanation of the "glocal" concept, and advice for students looking to become engaged as both local and global citizens. Learn more about the global producers that feed our nation, and learn from their worldviews intensely connected to people and planet. Discover how food preferences and trends affect the lives of farmers and fishermen. Catch a boots-on-the-ground glimpse of the daily lives of food producers on four continents. Meet a modern-day slave and explore the blurred line between exploitation and opportunity. Observe how the poorest producers fare in the global food economy. This book takes a human-centered approach to food, investigating the lives of the

people at the other end of the global food economy, observing the hope and opportunity—or lack thereof—that results from our reliance on imports. *Where Am I Eating?* is a touching, insightful, informative look at the origins of our food.

Bridges the gap between global farmers and fishermen and American consumers America now imports twice as much food as it did a decade ago. What does this increased reliance on imported food mean for the people around the globe who produce our food? Kelsey Timmerman set out on a global quest to meet the farmers and fisherman who grow and catch our food, and also worked alongside them: loading lobster boats in Nicaragua, splitting cocoa beans with a machete in Ivory Coast, and hauling tomatoes in Ohio. *Where Am I Eating?* tells fascinating stories of the farmers and fishermen around the world who produce the food we eat, explaining what their lives are like and how our habits affect them. This book shows how what we eat affects

the lives of the people who produce our food. Through compelling stories, explores the global food economy including workers rights, the global food crisis, fair trade, and immigration. Author Kelsey Timmerman has spoken at close to 100 schools around the globe about his first book, *Where Am I Wearing: A Global Tour of the Countries, Factories, and People That Make Our Clothes* He has been featured in the Financial Times and has discussed social issues on NPR's Talk of the Nation and Fox News Radio *Where Am I Eating?* does not argue for or against the globalization of food, but personalizes it by observing the hope and opportunity, and sometimes the lack thereof, which the global food economy gives to the world's poorest producers.
