“When truth teller and careful writer bell hooks offers a book, I like to be standing at the bookshop when it opens.” –Maya Angelou
Renowned visionary bell hooks explored the meaning of love in American culture with the critically acclaimed bestseller *All About Love: New Visions*. She continued her national dialogue with the bestselling *Salvation: Black People and Love*. Now hooks culminates her triumphant trilogy of love with *Communion: The Female Search for Love*. Intimate, revealing, provocative, *Communion*

challenges every woman to courageously claim the search for love as the heroic journey we must all choose to be truly free. In her trademark commanding and lucid language, hooks explores the ways ideas about women and love were changed by the feminist movement, by women's full participation in the workforce, and by the culture of self-help, and reveals how women of all ages can bring love into every aspect of their lives, for all the years of their lives. Communion is the heart-to-heart talk every woman -- mother, daughter, friend, and lover -- needs to have.

Learn about love from one of America's greatest Black feminists. Maybe you came across bell hooks' brilliant work in high-school. Maybe she already holds a treasured spot on your bookshelf. Or maybe you're not familiar with her at all. No matter where you're coming from, *All About Love* (2000) is the perfect introduction to the work of one of the most talented and critically acclaimed feminist writers in American history. With *All About Love*, what you see is exactly what you get: a critical examination of romantic love in theory, practice, and application. By exploring what we do and don't understand about love, bell hooks creates a roadmap that will guide us to a more

evolved and society. When Angels Speak of Love Canongate Books For a nation that often optimistically claims to be post-racial, we are still mired in the practices of racial inequality that plays out in law, policy, and in our local communities. One of two explanations is often given for this persistent phenomenon: On the one hand, we might be hypocritical—saying one thing, and doing or believing another; on the other, it might have little to do with us individually but rather be inherent to the structure of American society.

More Beautiful and More Terrible compels us to think beyond this insufficient dichotomy in order to see how racial inequality is perpetuated. Imani Perry asserts that the U.S. is in a new and distinct phase of racism that is “post-intentional”: neither based on the intentional discrimination of the past, nor drawing upon biological concepts of race. Drawing upon the insights and tools of critical race theory, social policy, law, sociology and cultural studies, she demonstrates how post-intentional racism works and maintains that it cannot be addressed solely

through the kinds of structural solutions of the Left or the values arguments of the Right. Rather, the author identifies a place in the middle—a space of “righteous hope”—and articulates a notion of ethics and human agency that will allow us to expand and amplify that hope. To paraphrase James Baldwin, when talking about race, it is both more terrible than most think, but also more beautiful than most can imagine, with limitless and open-ended possibility. Perry leads readers down the path of imagining the possible and points to the way forward.

What Love Is

Both an expression of the joy of self-healing and the need to be ever vigilant in the struggle for equality, Sisters of

the Yam continues to speak to the experience of black womanhood.

Lost in the Valley of Death All About Love

Johnson's visionary and much-needed book is a call for the transformation of English education to embrace rather than reject Blackness. Confronting the context of heightened racial violence against Black youth that

continues to sweep across the United States, Johnson illuminates the interconnection between the physical and symbolic violence that unfolds in and outside the classroom and demonstrates the harm this causes to Black youth. Employing an original framework, *Critical Race English Education*, Johnson reveals how English education and ELA classrooms are dominated by eurocentric language and literacy practices, and provides a justice-oriented framework that combats anti-Black racism. Throughout the book, Johnson disperses love letters to

Blackness, Black culture, and Black people, which serve as actions and practices for positive thinking and self-awareness about Blackness. *Critical Race English Education* is a movement for Black lives. A crucial resource for pre-service ELA teachers, researchers, professors, and graduate students in language and literacy education, and sociology of education, this book offers classroom lessons, thematic units, sample activities, and other pedagogical and curricula practices that reconceptualize ELA pedagogies in humanizing ways and

cater to the needs of students who come from racially and linguistically diverse backgrounds. *Where We Stand* Penguin In Teaching Critical Thinking, renowned cultural critic and progressive educator bell hooks addresses some of the most compelling issues facing teachers in and out of the classroom today. In a series of short, accessible, and enlightening essays, hooks explores the confounding and sometimes controversial topics that teachers and students have urged her to address since the publication of the previous best-selling volumes in her Teaching series, *Teaching to Transgress* and *Teaching Community*. The issues

are varied and broad, from whether meaningful teaching can take place in a large classroom setting to confronting issues of self-esteem. One professor, for example, asked how black female professors can maintain positive authority in a classroom without being seen through the lens of negative racist, sexist stereotypes. One teacher asked how to handle tears in the classroom, while another wanted to know how to use humor as a tool for learning. Addressing questions of race, gender, and class in this work, hooks discusses the complex balance that allows us to teach, value, and learn from works written by racist and sexist

authors. Highlighting the importance of reading, she insists on the primacy of free speech, a democratic education of literacy. Throughout these essays, she celebrates the transformative power of critical thinking. This is provocative, powerful, and joyful intellectual work. It is a must read for anyone who is at all interested in education today.

Communion Jump At The Sun

"The word "love" is most often defined as a noun, yet...we would all love to better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, the renowned scholar, cultural

critic, and feminist skewers our view of love as romance. In its place she offers a proactive new ethic for a people and a society bereft with lovelessness. As bell hooks uses her incisive mind and razor-sharp pen to explode the question "What is love?" her answers strike at both the mind and heart. In thirteen concise chapters, hooks examines her own search for emotional connection and society's failure to provide a model for learning to love. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for the individuals and for a nation. The Utne

Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful affirmation of just how profoundly she can.

In an awesome meeting of minds, cultural theorists Stuart Hall and bell hooks met for a series of wide-ranging conversations on what Hall sums up as "life, love, death, sex." From the trivial to the profound, across boundaries of age, sexualities and genders, hooks and

Hall dissect topics and themes of continual contemporary relevance, including feminism, home and homecoming, class, black masculinity, family, politics, relationships, and teaching. In their fluid and honest dialogue they push and pull each other as well as the reader, and the result is a book that speaks to the power of conversation as a place of critical pedagogy.
