fictional examination of the lives of real-life scientists and thinkers whose discoveries resulted in moral consequences beyond their imagining. When We Cease to Understand the World is a book about the complicated links between scientific and mathematical discovery, madness, and destruction. Fritz Haber, Alexander Grothendieck, Werner Heisenberg, Erwin Schrödinger—these are some of luminaries into whose troubled lives Benjamin Labatut thrusts the reader, showing us how they grappled with the most profound questions of existence. They have strokes of unparalleled genius, alienate friends and lovers, descend into isolation and insanity. Some of their discoveries reshape human life for the better; others pave the way to chaos and unimaginable suffering. The lines are never clear. At a breakneck pace and with a wealth of disturbing detail, Labatut uses the imaginative resources of fiction to tell the stories of the scientists and mathematicians who expanded our notions of the possible.

#1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

Most people don't think about where they're going to be when the world ends. On the beach drinking margaritas? In the arms of a lover? How about in a shit-ass resort run by your shit-ass parents? I have always lived my life as the perfect daughter. At seventeen, I had no other option than to follow my parents' strict regiment. Did I mention that they're assholes? The world didn't decide to suddenly end. Oh no, that would be too easy. Instead, it was a series of events that led to its eventual demise. Earthquakes, tornados, and a mysterious virus that turned people into raving lunatics. Fortunately for me, I have the help of seven handsome men to combat the coming storm. Literally. Declan, an enigma from my past. Ryder, a flirty musician. Asher, the sweetest boy I had ever met and probably the only one that I don't want to kick in the balls. Tamson, shy and timid, with a past I'm aching to uncover. Ronan, my sarcastic leprechaun. Fallon, the stoic leader. And, finally, Calax (but he doesn't really matter because I kind of hate him and want him to fall on his head and die). I will have to learn to rely on these boys and myself if we're going to survive the apocalypse. This is a slow-burn reverse harem series. Warning: This book deals with sensitive issues such as abuse, rape, and suicide that some readers may find triggering. Reader discretion is advised.
