Dam was built by TVA in the  
mid-1960's at Tennessee River  
mile 424.7 to replace the old  
and leaking Hales Bar Dam  
located 6.4 miles upstream.  
The Nickajack site is located in  
Marion County, Tennessee, 18  
air miles west of Chattanooga  
and about 2 miles northwest of  
the junction of the Alabama-  
Georgia-Tennessee State lines.  
Historically, the ancient Indian  
town of Nickajack was located  
at Shellmound, about a mile  
and a half upstream from the  
dam on the left bank of the  
reservoir. Nickajack was  
inhabited by the Cherokees as  
early as 1730. In 1784 the  
warlike Chief Dragging Canoe,  
who had earlier broken with  
the Cherokees, launched his  
marauding Chickamaugas  
from the town and used the  
nearby Nickajack Cave as a  
hideout. Later, during the Civil  
War, saltpeter was mined in  
the cave for Confederate  
gunpowder. The
