In 1938 Alpina presented the model "Alpina 4", which, as its name indicates,  
combined four important quality characteristics: Anti-magnetic, water  
resistant, Incabloc shock protection, and a case in stainless steel. In  
addition, the Alpina 4 was equipped with the manual winding Alpina 592

movement, one of the most reliable available at that time.

Hand Wind Mechanical | Watches.com

Manual watches, as the name suggests, require periodic winding by-hand - usually meaning the crown must be turned to wind the internal springs of the timepiece so that it will keep ticking. Alternatively, automatic watches skip this step entirely - most often by using the kinetic energy produced by the wearer to wind their internal springs.
