gone for good. This is the alarming conclusion from a study Answers in Genesis commissioned from America's Research Group, led by respected researcher Britt Beemer. The results may unnerve you - they may shake long-held assumptions to the core - but these results need to be taken seriously by the church. *Already Gone* reveals:

- Why America's churches have lost an entire generation of believers
- The views of 1,000 twenty-somethings, solidly raised in the church but no longer attending - and their reasons why
- Relevant statistical data effectively teamed with powerful apologetics

The study found that we are losing our kids in elementary, middle school, and high school rather than college, and the "Sunday school syndrome" is contributing to the epidemic, rather than helping alleviate it. This is an alarming wake-up call for the church, showing how our programs and our approaches to Christian education are failing...and our children are paying the price. Though the statistics reveal a huge disconnect taking place between our children and their church experience, *Already Gone* shows how to fight back for our families, our churches, and our world. We can make a difference today that will affect the statistics of tomorrow in a positive and Christ-focused way!

### **Will They Stand** Basic Books

Our children are facing cultural "giants" that previous generations could never have imagined. Secularism, depravity, immorality, and apathy taunt Christians with a

barrage of hate and intolerance. Will our children be equipped to stand strong against these giants or will they be overcome? That is the question Christian parents are asking. In this book, Ken Ham gives us a powerful message about the importance of raising strong believers who can stand in the face of a world that will challenge, disparage, and seek to eliminate their faith. He also helps prepare parents to equip the next generation to thrive in the face of cultural adversity and emerge as tomorrow's Christian leaders.

In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In *The Collapse of Parenting*, internationally acclaimed author Leonard Sax argues that

rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.
