Return to where it all started: New Orleans, the birthplace of the Krewe of Hunters, the FBI's elite paranormal investigation unit. Rediscover the first case in book

1 of the New York Times bestselling series, only from Heather Graham. Though haunted by the recent deaths of two teammates, Jackson Crow knows that it's the living who commit the most heinous crimes. As a police officer using her sometimes-otherworldly intuition, Angela Hawkins already has her hands full of mystery and bloodshed. Under the oversight of Adam Harrison, Jackson and Angela will join a newly formed unit of the FBI, with the extraordinary opportunity to use their psychic talents. And the first assignment calls to them too strongly to resist. In a historic mansion in the French Quarter, a senator's wife falls to her death. Most think she jumped; some say she was pushed. Yet others believe she was beckoned by the ghostly spirits inhabiting the house—once the site of a serial killer's grisly work. In this seemingly unsolvable case, only one thing is certain: whether supernatural or all too human, crimes of passion will cast Jackson and Angela straight into danger. Originally published in 2011

Knight of Darkness Hachette UK

From the #1 bestselling author of the Dark-Hunters comes an all new tale her fans have been waiting almost two decades to read. A post-apocalyptic tale unlike any you ever seen: The virus ran swiftly on the hot summer breeze. Unseen. Unheard. Unknown. It swept through the entire earth in a matter of months, having mercy on no one. Young—old—it didn't matter. Brought to us by the Drabs, it was the last thing we expected. But the Drabs knew. They even fought a war over whether or not they should save us. In the end, it was decided that we were diseased insects who were unfit to breathe their air. Our air. So they left the human race to die a miserable death of agonizing pain in a matter of months. Left us with no doctors or medicine. Their plan was to rid the

earth of us and to take our home as their own. What they never expected was the change that would come after the plague. We didn't all die off as they'd planned. Those under the age of twenty somehow managed to survive the disease. We managed to hide ourselves while our bodies changed. Still human, but now something else. Something more powerful and more intuitive. More pissed off. Now possessed of magical powers and abilities beyond belief, we're still here on this earth, and we're not leaving. This is our home. Our planet. Drabs take note and learn to be afraid. You've had a hundred years here on earth, but now your time here is done. You called us rodents. Insects. Diseased animals. The scraps of humanity—and that, my Drab friend, we certainly are. But what you should have realized is that you can't kill a Scrap. Humanity isn't dead. Not by a long shot. We still have our soldiers and we have our conviction. Most of all, we have hope. And we will win in the end. Whatever it takes. Whatever it costs. We won't allow you to take our planet

from us. So count your days, Drabs. The war is on. This edition also contains the short story *The Witch of Endor*.
