It is used internationally. The AMA also offers best standards to the evaluation of causation and work ability. The use of the AMA Guides in workers compensation varies by jurisdiction (see Guide adoption lists by state in the United States). The Editions are: Sixth Edition (published in 2007, used in 19 states / jurisdictions and Federal cases)

AMA Guides to the Evaluation of Permanent Impairment ...

A Permanent Partial Impairment (PPI) Rating is a medical assessment of the nature and extent of claimant's injury represented by a percentage value of a body part (e.g. 10% of a hand or 15% of a whole person) that is used in part to adjudicate claims. PPI ratings are generated by a physician who follows the principles in the American Medical Association publication AMA Guides to the ...

"AMA Guides to the Evaluation of Permanent Impairment ...

The 6th edition Guides now follow the International Classification of Functioning, Disability and Health (ICF) as developed by the World Health Organization (WHO). Diagnoses for the upper extremity are now defined in three major categories: soft tissue, muscle-tendon, and ligament-bone-joint . There are now five defined impairment classes, ranging from class 0 (no objective findings and thus no impairment), to class 4 ("very severe" problem with an upper extremity impairment range ...

The AMA periodically publishes and updates a physician impairment rating guide (the AMA Guides). The 6th Edition, published in 2008, incorporates the definitions and terminology of the ICF and provides a simple means of assessment of ADLs as part of the rating process. It also has shifted the ratings criteria towards a diagnosis-based approach ...
