AMA was developed by the American Medical

Association for the purpose of writing medical  
research. References are found at the end of a  
manuscript and are titled "Reference List," and  
each item should be listed in numerical order (two  
references should not be combined under a single  
reference number) as opposed to alphabetically.

### AGAINST MEDICAL ADVICE (AMA FORM)

AMA format is a tool to keep an academic  
paper organized. It helps those students  
studying health care, medicine & nursing to  
present their ideas and make the structure  
clear for the reading audience. The  
American Medical Association first  
published AMA citation guide in 1962, and  
it did not introduce many changes since  
that year.

Tips: References List 3.2 Cited works are  
numbered in order of initial appearance in  
the text, and appear in the Reference List in  
numerical order. Use arabic superscript  
numerals outside periods and commas, and  
inside colons and semicolons.; Authors'  
names are inverted, and use only initials for  
first and middle names.
