The NTCA conference series is dedicated to publishing peer-reviewed proceedings of the conference. The goal is to disseminate state-of-the-art scientific results available in the domain of civil aviation. These proceedings contain a collection of scientific contributions to the NTCA 2017 conference, which took place in Prague from 7-8 December 2017 and was hosted by the Department of Air Transport, Czech Technical University in Prague with the cooperation of the Faculty of Aeronautics, Technical University of Košice; Institute of

Aerospace Engineering, Brno University of Technology; Air Transport Department, University of Žilina, and the Czech Aerospace Society. The NTCA conference aims to build and extend a platform for interaction between communities interested in aviation problems and applications. NTCA 2017 followed this established practice and provided room for discussing and sharing views on the current issues in the field of aviation. As a result, these proceedings include contributions on air transport operations, air traffic management and economic aspects, aviation safety and security, aircraft technologies, unmanned aerial systems, human factors and ergonomics in aviation.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the

end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

This book chronicles airline revenue management from its early origins to the last frontier. Since its inception revenue management has

now become an integral part of the airline business process for competitive advantage. The field has progressed from inventory control of the base fare, to managing bundles of base fare and air ancillaries, to the precise inventory control at the individual seat level. The author provides an end-to-end view of pricing and revenue management in the airline industry covering airline pricing, advances in revenue management, availability, and air shopping, offer management and product distribution, agency revenue management, impact of revenue management across airline planning and operations, and emerging technologies is travel. The target audience of this book is practitioners who want to understand the basics and have an end-to-end view of revenue management.

*Napoleon in Power*  
Plunkett Research, Ltd.  
In 1921, Paul Amadeus Dienach, a Swiss-Austrian teacher with fragile health, falls into a one-year-long coma. During this time, his consciousness slides

into the future and enters the body of another man in 3906 A.D. When Dienach awakens from his coma, he finds himself back in 1922. Knowing that he doesn't have much time left, he writes a diary, recording whatever he could remember from his amazing experience: the mankind's history in the forthcoming centuries, from the nightmare of overpopulation and World Wars up until the world-changing globalisation, the radical new administration system, the colony on Mars and the next human evolutionary stage. Without any close friends and relatives to entrust, he doesn't say a word to anyone out of fear of being branded a lunatic. Before he dies, he hands his diary to his favourite student, George Papachatzis, later prominent Professor of Law and Rector of Panteion University of Greece. The diary circulates as hidden knowledge amongst high ranking masons in the lodges of Athens. In 1972, professor Papachatzis, despite an intense dispute, decides to publish Dienach's diary in Greek. Paul Dienach was not an

author, poet, or professional writer. Rather, he was an ordinary man who kept a journal, never with the expectation that it would be published. This unique and controversial book, a universal legacy, is now carefully edited, translated and available to everyone. This is the history of our future! We deliver it to you."

The Airline Business Prabhat Prakashan  
In this second volume of Philip Dwyer's authoritative biography on one of history's most enthralling leaders, Napoleon, now 30, takes his position as head of the French state after the 1799 coup. Dwyer explores the young leader's reign, complete with mistakes, wrong turns, and pitfalls, and reveals the great lengths to which Napoleon goes in the effort to fashion his image as legitimate and patriarchal ruler of the new nation. Concealing his defeats, exaggerating his victories, never hesitating to blame others for his own failings, Napoleon is ruthless in his ambition for power. Following Napoleon from Paris to his successful campaigns in Italy and Austria, to the disastrous invasion of Russia, and finally to the war against the Sixth Coalition that would end his reign in Europe, the book looks not only at these events but at the character of the man behind them. Dwyer reveals

Napoleon's darker sides—his brooding obsessions and propensity for violence—as well as his passionate nature: his loves, his ability to inspire, and his capacity for realizing his visionary ideas. In an insightful analysis of Napoleon as one of the first truly modern politicians, the author discusses how the persuasive and forward-thinking leader skillfully fashioned the image of himself that persists in legends that surround him to this day.

This book addresses the digitization of all processes

and value chains in the tourism, travel, hospitality and catering industries. By exploring the new technological trends it provides a solid basis for analysing the impacts of the Information Communication Technology (ICT) revolution on the tourism industry. The book adopts a strategic management and marketing perspective for tourism enterprises and destinations. It suggests that ETourism revolutionizes all business processes, the entire value chain as well as the strategic relationships of tourism organizations with all their stakeholders. It additionally focuses on how ICTs are employed in airlines, hotels, travel agencies, tour operators and destinations management organizations. The book demonstrates that tourism ICTs increasingly determine the competitiveness of the organization, and therefore, they are critical for the competitiveness of the industry in the longer term. The book is aimed at advanced undergraduate and postgraduate students in business, tourism and hospitality programmes that need to explore how they can use ICTs in a strategic context. It is also anticipated that researchers and practitioners will find it useful and stimulating. Features

and benefits: Strategic perspective demonstrates the contribution of ICTs to the competitiveness of tourism organizations and destinations A wealth of international examples ensure global application and relevance Extensive use of case studies and illustrative examples demonstrate the link between theory and real world tourism situations Discussion topics encourage students to analyse further the information covered Extensive bibliography and further reading encourage more advanced study Associated website featuring up-to-date FT articles and power point slides create a comprehensive teaching and learning package. *Airlines International* Plunkett Research, Ltd.

This book provides a flight plan for riding the impending connectivity transformation curve. It takes the perspective of actionability, highlighting initiatives that executives in airlines and related businesses can use from the insights of multi-industry executives. The emphasis is on execution, not on the concepts themselves. There is a cluster of at least four distinct megatrends that may converge to form disruptive conditions: (1) elevated expectations of existing and new customer segmentations, those who expect available and accessible air mass transportation systems, and those who expect connected services and seamless travel on different modes of transportation; (2) new emerging technology, incorporated in the air and ground vehicles, that will create new opportunities for existing and new service providers to offer new value propositions; (3) platforms developed around the ecosystem of customers; and (4) the impact on travel that the fast-changing demographic and economic characteristics of two major countries: India and China. These megatrends could lead existing or new

businesses to create value propositions specifically dedicated to the new segments once each reaches a critical mass. Drawing on the author's own experience in the airline industry and related businesses, this book discusses the "how", relating to reimagining the business, re-entrepreneurship of the organization, innovating through partnerships, reengaging with customers and employees, and rebranding the business in response to these trends. This book is recommended reading for all senior-level practitioners of airlines and related businesses worldwide.

In his book *Smiling Through Turbulence*, Patee Sarasin, shares the highs and lows he experienced managing Nok Air, one of Asia's leading low-cost carriers. Patee co-founded Nok in 2004 and was CEO until he stepped down in September 2017. When Patee recounts his experiences in life and in running the airline, he also highlights the lessons learnt. These are lessons people can apply to their own lives and businesses. The book begins with Patee discussing the December 2004 tsunami that devastated parts of southern Thailand. Nok Air had launched only a

---

few months prior to this catastrophe. The tsunami had a major impact on the airline's operations and pushed the business to the brink. Patee talks about how the airline dealt with this crisis and helped the community. Nok Air flew in doctors and medical staff for free, to the disaster zone, and evacuated people including the injured. He explains that in a crisis, one will ultimately be judged - not by the crisis - but by how one deals with the situation. The airline also came close to the brink of financial collapse in 2008 when global oil prices were high. Ironically, it was the global financial crisis that saved the airline, because it caused fuel prices to plummet. Patee was brought up straddling western and Thai culture. In the book, he gives insights into how to work with Thai people. He also recounts his early experiences working in Thailand on chicken farms where he learnt the 'real Thai' culture. This book will be of interest to people who want to learn lessons in business and in life. Patee speaks openly about the experiences and lessons he learned from running one of Asia's leading low-cost carriers.
