A Documentary History of America Macmillan

A book students love, in a more concise format. America has sold more than 1.8 million copies over the past eight editions because it’s a book that students enjoy reading. Effective storytelling, colorful anecdotes, and biographical sketches make the narrative absorbing and the material more memorable. The Brief Ninth Edition is 20% shorter, and includes refreshed and updated coverage of African American history, and has been streamlined from 37 to 34 chapters.

A Narrative History W. W. Norton

The history of the South in this century has been obscured in the ever-growing mass of information about the region's rapid change and turbulent development. In this book, Volume X of A History of the South, the historical image of the modern South is brought into full focus for the first time. George Brown Tindall presents a thorough and well-balanced historical narrative of the region during the years 1913--1945 when the South underwent a transformation from a predominantly agricultural area to one of growing industrialization. The inauguration of President Woodrow Wilson ended a half century of political isolation for the South and ushered in an era of agrarian reforms, prohibition, woman suffrage, industrial growth, and recurring crises for Southern farmers. During the 1920's the South was caught in a contrast of urban booms and farm distress. There were flareups of racial violence, and the Ku Klux Klan was revived. Mr. Tindall devotes considerable attention to the Southern literary renaissance which produced William Faulkner, Thomas Wolfe, and many other notable writers and critics. The Emergence of the New South provides a new understanding of the changing political and social climate in the South under the stresses of depression, the New Deal, the labor movement, Negro unrest, and two world wars.

A Narrative History University of Georgia Press

The Second Edition of Johnny Salda ñ a's international bestseller provides an in-depth guide to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional glossary. Clear, practical and authoritative, the book: -describes how coding initiates qualitative data analysis -demonstrates the writing of analytic memos -discusses available analytic software -suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Salda ñ a discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

America: A Narrative History (Ninth Edition) Cengage Learning

The definitive guide to getting your way, revised and updated with new material on writing, speaking, framing, and other key tools for arguing more powerfully “ Cross Cicero with David Letterman and you get Jay Heinrichs. ” —Joseph Ellis, Pulitzer Prize – winning author of The Quartet and American Sphinx Now in its fourth edition, Jay Heinrichs ’ s Thank You for Arguing is your master class in the art of persuasion, taught by history ’ s greatest professors, ranging from Queen Victoria and Winston Churchill to Homer Simpson and Barack

Obama. Filled with time-tested secrets for emerging victorious from any dispute, including Cicero's three-step strategy for inspiring action and Honest Abe's Shameless Trick for lowering an audience's expectations, this fascinating book also includes an assortment of persuasion tips, such as:

- The Chandler Bing Adjustment: Match your argument to your audience (that is, persuasion is not about you).
- The Belushi Paradigm: Before people will follow you, they have to consider you worth following.
- The Yoda Technique: Transform a banal idiom by switching the words around.

Additionally, Heinrichs considers the dark arts of persuasion, such as politicians' use of coded language to appeal to specific groups. His sage guide has been fully updated to address our culture of "fake news" and political polarization. Whether you're a lover of language books or just want to win more anger-free arguments on the page, at the podium, or over a beer, Thank You for Arguing is for you. Warm, witty, and truly enlightening, it not only teaches you how to identify a paraleipsis when you hear it but also how to wield such persuasive weapons the next time you really, really need to get your way. This expanded edition also includes a new chapter on how to reset your audience's priorities, as well as new and improved ArgueLab games to hone your skills.

A History of the South Wadsworth Publishing Company

Shi provides the most comprehensive history to date of the rise of realism in American culture, vividly capturing the character and sweep of this all-encompassing movement that ranges from Winslow Homer to the rise of the Ash Can school, from Whitman to Henry James to Theodore Dreiser.

For the Record Little, Brown

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge new scholarship, the seventh edition of America's History is designed to work perfectly with the way you teach the survey today.

Building on the book's hallmark strengths — balance, comprehensiveness, and explanatory power — as well as its outstanding visuals and extensive primary-source features, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America's History into the ideal resource for survey classes.

Voices of the American Past Macmillan

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

America: A Narrative History (Brief Ninth Edition) W. W. Norton

Offers a broad view of American culture during the 1920s, discussing the changing values that ended the repressive Victorian era, the growing importance of pluralism in America's heterogeneous society, and the expansion of federal bureaucracy

The American W. W. Norton

For your classes in American History, McGraw-Hill introduces the latest edition of U*S: A Narrative History, part of the acclaimed M Series. The M Series started with you and your students. McGraw-Hill conducted extensive market research to gain insight into students' studying and learning behavior. Students want text programs with visual appeal and content designed according to the way they learn. Instructors desire greater student involvement in the course content without compromising on high quality content. From a known and trusted author team, U*S: A Narrative History tells the story of us, the American people, with all the visually engaging, personally involving material that your students want. This innovative text provides instructors with scholarly, succinct, and conventionally organized core content; a highly readable and unified narrative

that is continental in scope; and a magazine format that engages students and helps them connect with the nation's past. Plus, U*S: A Narrative History now offers Connect History, a new web-based assignment and assessment platform, which combines a fully integrated eBook with powerful learning and teaching tools that make managing assignments easier and learning and studying more engaging and efficient. For instance, a groundbreaking adaptive questioning diagnostic, LearnSmart, provides a personalized study plan for students to ensure that they understand chapter content, while engaging interactivities such as Critical Missions involves students deeply in situations as they sharpen their analytical skills and increase their historical understanding. U*S: A Narrative History is more current, more portable, and more captivating. Its rigorous and innovative research foundation, plus Connect History adds up to: more learning. When you meet students where they are, you can take them where you want them to be.

How the Word Is Passed Cosimo, Inc.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

America W. W. Norton

VOICES OF THE AMERICAN PAST is a two-volume reader that presents a variety of diverse perspectives through more than 240 primary sources. Excerpts from speeches, letters, journals, magazine articles, hearings and government documents raise issues from both public and private aspects of American life throughout history. A "Guide to Reading and Interpreting Documents" in the front matter explains how and why historians use primary source evidence, and outlines basic points to help readers learn to analyze sources. Brief headnotes set each source into context. "Questions to Consider" precede each document, offering prompts for critical thinking and reflection. The volumes are organized chronologically into 27 chapters, with the Reconstruction chapter overlapping in both volumes.

Facing Facts LSU Press

Looking across more than three centuries of want and prosperity,

war and peace, Shi introduces a rich cast of practitioners and proponents of the simple life, among them Thomas Jefferson, Henry David Thoreau, Jane Addams, Scott and Helen Nearing, and Jimmy Carter.

America's History, Volume 1: To 1877 SAGE

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples ' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, An Indigenous Peoples ' History of the United States is an essential resource providing historical threads that are crucial for understanding the present. In An Indigenous Peoples ' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: " The country can be rid of them only by exterminating them. " Spanning more than four hundred years, this classic bottom-up peoples ' history radically reframes US history and explodes the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

America's History Stanford University Press

With more than two million copies sold, America remains the leading narrative history survey text because it's a book that students enjoy reading. The Tenth Edition is both more relevant, offering increased attention to the culture of everyday life, and more accessible, featuring a reduced number of chapters and a streamlined narrative throughout.

The Coding Manual for Qualitative Researchers American Bar Association

" If you want to read one book about Vietnam, read this one. "

—New York Review of Books Drawing on years of experience teaching about the war, Larry H. Addington presents a short, narrative history of the origins, course, and outcome of America ' s military involvement in Vietnam. Not intended as a competitor to the many excellent comprehensive studies of the Vietnam Era, this book will prove a useful introduction and a concise reference to America ' s longest, most controversial war. Addington reviews the history of pre-colonial Vietnam, the impact of French imperialism and the Indochina War, and the Cold War origins of American involvement. He then details US policy after the 1954 Geneva Accords, its role in the establishment of South Vietnam, and the outbreak of a new war. Turning to America ' s deepening involvement, Addington examines the US strategies for waging air and ground war, the impact of the war at home, and the reasons for the failure of US policy under President Johnson. He studies the successes and failures of the policy of withdrawal under President Nixon and concludes with an overview of the war ' s aftermath and its legacy.
