The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

Best Review at the Catholic Press Association Convention Studies of young American Catholics over the last three decades suggest a growing crisis in the Catholic Church: compared to their elders, young Catholics are looking to the Church less as they form their identities, and fewer of them can even explain what it means to be Catholic and why that matters. Young Catholic America, the latest book based on the groundbreaking National

Study of Youth and Religion, explores a crucial stage in the life of Catholics. Drawing on in-depth surveys and interviews of Catholics and ex-Catholics ages 18 to 23--a demographic commonly known as early "emerging adulthood"--leading sociologist Christian Smith and his colleagues offer a wealth of insight into the wide variety of religious practices and beliefs among young Catholics today, the early influences and life-altering events that lead them to embrace the Church or abandon it, and how being Catholic affects them as they become full-fledged adults. Beyond its rich collection of statistical data, the book includes vivid case studies of individuals spanning a full decade, as well as insight into the twentieth-century events that helped to shape the Church and its members in America. An innovative contribution to what we know about religion in the United States and the evolving Catholic Church, *Young Catholic America* is the definitive source for anyone seeking to understand what it means to be young and Catholic in America today.

**Cracks in the American Dream** DIANE Publishing

Most studies of Black families have had a 'problem focus', offering a narrow view of important issues such as out-of-wedlock births, single-parent families and childhood poverty. *Family Life in Black America* moves away from this negative perspective and instead deals with a wide range of issues including sexuality, procreation, infancy, adulthood, adolescence, cohabitation, parenting, grandparenting and ageing. A fresh aspect of this book is the amount of diversity it reveals within black families and the forces that shape, limit and enhance them.

A rich and riveting record of both literary and social value. Frank Sargeson is one of New Zealand's best-loved and most important writers. Besides the ground-breaking short stories, he wrote memoirs, novels, and plays. He encouraged at least three generations of younger writers and, for most of his adult life, the famous bach behind the hedge at 14 Esmonde Road was at the heart of New Zealand's artistic and literary world. Sargeson was also a prolific letter writer, and this selection of 500 of the most fascinating ranges over half a century, from 1927 to 1981. The letters are immensely readable, vividly capturing his life and times, his milieu and his personality. Frank loved gossip, could be bitchy and peevish, but also kind, affectionate, funny, ribald, astute. This collection, selected, edited and annotated by Sarah Shieff, is a document of extraordinary significance for all those interested in New Zealand's literary and social history.

**Family Life in Black America** SAGE Publications, Incorporated

From the New York Times bestselling author of *Tears We Cannot Stop*, a passionate call to America to finally reckon with race and start the journey to redemption. The night of May 25, 2020 changed America. George Floyd, a 43-year-old Black man, was killed during an arrest in Minneapolis when a white cop suffocated him. The video of that night's events went viral, sparking the largest protests in the nation's history and the sort of social unrest we have not seen since the sixties. While Floyd's death was certainly the catalyst, (heightened by the fact that it occurred during a pandemic whose victims were disproportionately of color) it was in truth the fuse that lit an ever-filling powder keg. *Long Time Coming* grapples with the cultural and social forces that have shaped our nation in the brutal crucible of race. In five beautifully argued chapters--each addressed to a black martyr from Breonna Taylor to Rev. Clementa Pinckney--Dyson traces the genealogy of anti-blackness from the slave ship to the street corner where Floyd lost his life--and where America gained its will to confront the ugly truth of systemic racism. Ending with a poignant plea for hope, Dyson's exciting new book points the way to social redemption. *Long Time Coming* is a necessary guide to help America finally reckon with race.
