Gay Canada, comprising a main volume published in 2001 and this present Supplement, provides a bibliographic record of major print and filmed works relating to Canadian gay and lesbian life from 1984-2000, with substantial coverage also for 2001 and early 2002. Together, these two volumes are an essential source for libraries, students of sexual diversity studies and archivists. Gay Canada is an accessible and serious research tool, a collection of important and fascinating information. This Supplement, with emphasis particularly but not exclusively on items of the late 1990s through 2002, should be used in conjunction with the main volume of Gay Canada. The Supplement incorporates results of a detailed search of the National Library of Canada's online union catalogue, AMICUS. It reflects a re-examination of sources checked earlier in order to retrieve works indexed too late for inclusion in the first edition. An errata sheet for the small number of errors uncovered in the main volume is also attached. The user should note that the combined contents of the first edition main volume, this Supplement, and the errata sheet in the Supplement are equivalent to the contents of the revised and expanded edition of Gay Canada, published by this press in 2002.

Astral Projection is one of those things that most people would love to do. Who would not like to be able to detach from the physical body and travel to distant places, discover amazing worlds and learn the answers to many of the questions that they might have. Indeed the Out of Body Experience allows you to know that there is more to you than the physical body. It can expand your creativity and conscious awareness, and it can even lessen the fear of death. Unfortunately many become highly disappointed when they try technique after technique without any positive results. It is not surprising then that most think that Out of Body Experiences are very difficult to achieve. Certainly, after participating in arduous physical and mental Out of Body techniques that rely on trying to maintain postures that make your body ache, chants that make your throat sore, or highly boring meditative routines that are only successful at making you fall asleep, people can't be blamed for thinking that Astral Travel is impossible. The thing is though that Out of Body Experiences are part of our natural heritage as human being, and as such they are within the realm of possibility for all of us. In this book you will not be asked to wake up in your dreams even though you are never really told how to consistently achieve this difficult task. You won't be asked to set your alarm to wake in the middle of the night, and keep some odd sleeping schedule that is only successful at wrecking a good night's sleep. This book will not demand that you feel the energy vibrations within your body and project these vibrations outside of yourself, without ever mentioning that such energy work can take a long time to master. The techniques in this book are easy, natural, and can be done by anyone. They are easy to implement because they use the natural tendencies of human consciousness, they work with the natural flow of consciousness instead of against it. In this book you will find out how to: -Quickly and easily initiate Out of Body travel -Consciously participate in Astral Travel and Lucid Dreaming -Create and solidify an Astral/Double body -Develop Energetic Containment so that you can travel anywhere you want safely You will also learn about: -The different worlds that you can access in the Out of Body state -The type of beings that you can encounter -Ways to deal with and overcome the limitations of the ego/self

Is this new land a place where magics really happen? From Gregory Maguire, the acclaimed author of *Wicked*, comes his much-anticipated second novel, a brilliant and provocative retelling of the timeless Cinderella tale. In the lives of children, pumpkins can turn into coaches, mice and rats into human beings.... When we grow up, we learn that it's far more common for human beings to turn into rats.... We all have heard the story of Cinderella, the beautiful child cast out to slave among the ashes. But what of her stepsisters, the homely pair exiled into ignominy by the fame of their lovely sibling? What fate befell those untouched by beauty . . . and what curses accompanied Cinderella's exquisite looks? Extreme beauty is an affliction Set against the rich backdrop of seventeenth-century Holland, *Confessions of an Ugly Stepsister* tells the story of Iris, an unlikely heroine who finds herself swept from the lowly streets of Haarlem to a strange world of wealth, artifice, and ambition. Iris's path quickly becomes intertwined with that of Clara, the mysterious and unnaturally beautiful girl destined to become her sister. Clara was the prettiest child, but was her life the prettiest tale? While Clara retreats to the cinders of the family hearth, burning all memories of her past, Iris seeks out the shadowy secrets of her new household--and the treacherous truth of her former life. God and Satan snarling at each other like dogs.... Imps and fairy godmothers trying to undo each other's work. How we try to pin the world between opposite extremes! Far more than a mere fairy-tale, *Confessions of an Ugly Stepsister* is a novel of beauty and betrayal, illusion and understanding, reminding us that deception can be unearthed--and love unveiled--in the most unexpected of places.
