Though Americans rarely appreciate it, federalism has profoundly shaped their nation's past, present, and future. Federalism—the division of government authority between the national government and the states—affects the prosperity, security, and daily life of every American. Some of the most spectacular political conflicts in American history have been fought on the battlefield of federalism, including states' rights to leave the union, government power to regulate business, and responses to the problems of race, poverty, pollution, abortion, and gay rights. In the second edition of this nuanced and comprehensive text, David Brian Robertson shows that past choices shape present circumstances, and that a deep understanding of American government, public policy, political processes, and society requires an understanding of the key steps in federalism's evolution in American history. New to the Second Edition Emphasizes that federalism is a battleground that shapes every life in America.

Extensively revised and updated, including new coverage of recent controversies like Ferguson, immigration, climate change, Obamacare, gay rights, the minimum wage, political polarization, voter identification, fracking, and marijuana legalization. Brings together the newest developments in history, political science, law, and related disciplines to show how federalism influences government and politics today. Includes chapter-opening vignettes that deal with contemporary cases and policy challenges.

American Government and Politics Today 2011-2012 Edition, AP Edition CQ Press

Why are Americans so angry with each other? The United States is caught in a partisan hyperconflict that divides politicians, communities—and even families. Politicians from the president to state and local office-holders play to strongly-held beliefs and sometimes even pour fuel on the resulting inferno. This polarization has become so intense that many people no longer trust anyone from a differing perspective. Drawing on his personal story of growing up as a fundamentalist Christian on a dairy farm in rural Ohio, then as an academic in the heart of the liberal East Coast establishment, Darrell West analyzes the economic, cultural, and political aspects of polarization. He takes advantage of his experiences inside both conservative and liberal camps to explain the views of each side and offer insights into why each is angry with the other. West argues that societal tensions have metastasized into a dangerous tribalism that seriously threatens U.S. democracy. Unless people can bridge these divisions and forge a new path forward, it will be impossible to work together, maintain a functioning democracy, and solve the country's pressing policy problems.

Analyzing American Democracy teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as both an introduction to American politics and to the discipline of political science by reflecting the theoretical developments and empirical inquiry conducted by researchers. Every chapter highlights the most current research and discusses related public policy. It demonstrates for students how to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics

works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American government course and out of this text—they learn a way of thinking that they can use to make sense of future challenges facing the American polity. A number of features help aid comprehension and critical thinking: Key Questions at the start of every chapter frame the learning objectives and concepts Politics in Practice boxes in every chapter encourage students to think critically about how practice compares with theory Tables, Figures, Charts, and Maps throughout present the empirical details of American politics, helping students gain quantitative literacy Top Ten Takeaway Points at the end of every chapter recap the most important points covered but also help students discern the general principles that make sense of the numerous factual details Key Terms are bolded in the text, defined in the margins, recapped at the end of the chapter, and compiled in a glossary, all to help insure that students can effortlessly master the vocabulary of American politics and political science in order to move on to the more important concepts.

*American government and politics today : 2006-2007* Brookings Institution Press

Making politics personal, Bardes/Shelley/Schmidt's *American Government and Politics Today, The Essentials, Enhanced 19th Edition* equips you with the tools and insight to become an active, informed citizen. Unbiased, updated with Election 2018 analysis and extremely student-friendly, the text combines a conversational, easy-to-read style with thorough coverage in a streamlined format. Political authorities as well as longtime professors who know what today's students like, the authors incorporate a wealth of current, compelling and thought-provoking examples that bring chapter concepts to life. In addition, numerous hands-on activities help you figure out where you stand on key issues so you can put your views into action. Also available: MindTap, Cengage Learning's fully online learning solution.

*The Enduring Democracy* by Kenneth Dautrich, David A. Yalof, and Christina Bejarano examines the current state of American politics through the lenses of American history and the nation's changing demographics. This two-pronged approach encourages students to place current issues and controversies into historical perspective, and to think critically about how those issues and controversies are impacted by America's increasingly diverse population. By analyzing and understanding the influences of historical context and demographics, students can debate effectively with references, use historical outcomes to predict for the future, and create strong arguments based on what they know about fundamental changes in the political landscape. The highly anticipated Sixth Edition frames the 2016 general election and 2018 midterm elections from the perspective of what they mean to college students, so that they can see the relevance of American government in their daily lives. Also available as a digital option (courseware). Learn more about *The Enduring Democracy, Sixth Edition - Vantage Digital Option*.

[The Paranoid Style in American Politics](#) American Government and Politics Today, 2018 Election Update Essentials Edition

Fake news. Twitter rants. Misinformation. Silos. Echo chambers. Spin. Alternative facts. Investigation, accusation, and obfuscation. Punditry, polls, and prognostication. This is today's politics. To cut through the noise, students need a guide to how politics really works and why it matters. *American Politics Today* has been that trusted source. And the new sixth edition brings even greater focus to examining preconceived notions of how government operates and understanding what's really going on.

[American Government and Politics Today](#) Cengage Learning

In a campaign for state or local office these days, you're as likely today to hear accusations that an opponent advanced Obamacare or supported Donald Trump as you are to hear about issues affecting the state or local community. This is because American political behavior has become substantially more nationalized. American voters are far more engaged with and knowledgeable about what's happening in Washington, DC, than in similar messages whether they are in the South, the Northeast, or the Midwest. Gone are the days when all politics was local. With *The Increasingly United States*, Daniel J. Hopkins explores this trend and its implications for the American political system. The change is significant in part because it works against a key rationale of America's federalist system, which was built on the assumption that citizens would be more strongly attached to their states and localities. It also has profound implications for how voters are represented. If voters are well informed about state politics, for example, the governor has an incentive to deliver what voters—or at least a pivotal segment of them—want. But if voters are likely to back the same party in gubernatorial as in presidential elections irrespective of the governor's actions in office, governors may instead come to see their ambitions as tethered more closely to their status in the national party.

A study of the gap between the promise and practice of American democracy examines the historical national unity derived from the democratic ideal and the frustration of that ideal by political institutions and hierarchies

**American Government and Politics Today** Cengage Learning

This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?," *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

*Hyperconflict in the Trump Era* SAGE

A fresh, accessible perspective on the fundamentals

*Study Guide* SAGE

Written for all students of politics coming to the subject for the first time, this textbook provides a lively and accessible introduction and guide to all the main features and characteristics of one of the most distinctive and complex political systems in the world.

All components of the learning package--textbook, InQuizitive adaptive learning tool, and coursepack--are organized around specific chapter learning goals to ensure that students learn the nuts and bolts of American government.

**American Politics** Routledge

'For those who still believe that politics is normally, naturally, about economics, Rob Singh has gathered the evidence and dialed the wake-up call: seven major instances of an ongoing culture war meet a common analytic framework here in a lively and informative fashion' - Byron E Shafer, University of Wisconsin

**Politics and Political Science** Bloomsbury Publishing USA

American Government and Politics is a completely new introductory textbook designed and written for all students of politics coming to the subject for the first time. It provides a lively and accessible introduction and guide to all the main features and characteristics of one of the most distinctive and complex contemporary political systems in the world. From the impeachment of Bill Clinton, to the controversy surrounding the 2000 presidential election, and the Bush administration's responses to September 11, students will gain a balanced and critical understanding of all the key issues and debates in contemporary American government and politics today. A number of key underlying themes include: - the nature of American values and identity - the influence of the constitution on political development - the ways in which key governing institutions function to produce domestic and foreign policy. Key features include: - comprehensive glossary of key terms - discussion and summary boxes - web links and guides to further reading Robert Singh is a lecturer in politics at Birkbeck College, London. American Government and Politics: A Concise Introduction is the foundation companion text to Contemporary American Politics: Issues and Controversies also published by SAGE. 'Rob Singh has written a finely organized and informative textbook that combines to an unusually high degree analytical clarity, accessibility of style and form, and an enlightened scepticism about received wisdom. This is an admirable book' - Nigel Bowles, St Anne's College, Oxford

'Full of topical information and written with sparkling clarity, this book is a short-cut to excellence for the discriminating student' - Rhodri Jeffreys-Jones, Professor of American History, University of Edinburgh 'In American Government and Politics Robert Singh provides an excellent introduction to the subject. His approach is wide ranging, his examples well selected and his style is accessible. It will make an ideal book for introductory and more advanced university courses on US government. I strongly recommend the book to teachers and students' - Desmond King, Mellon Professor of American Government, University of Oxford 'This is a well written and lively book that is an important addition to the ranks of textbooks on American politics. One of its many virtues is its recognition that the textbook today is useful to a student only if it links to the world of web-based resources. Highly recommended' - Alan Ware, Worcester College, Oxford

**Analyzing American Democracy** Wadsworth Publishing Company

A raucous history of American democracy at its wildest--and a bold rethinking of the relationship between the people and their politics. Democracy was broken. Or that was what many Americans believed in the decades after the Civil War. Shaken by economic and technological disruption, they sought safety in aggressive, tribal partisanship. The results were the loudest, closest, most violent elections in U.S. history, driven by vibrant campaigns that drew our highest-ever voter turnouts. At the century's end, reformers finally restrained this wild system, trading away participation for civility in the process. They built a calmer, cleaner democracy, but also a more distant one. Americans' voting rates crashed and never fully recovered. This is the origin story of the "normal" politics of the 20th century. Only by exploring where that civility and restraint came from can we understand what is happening to our democracy today. The Age of Acrimony charts the rise and fall of 19th-century America's unruly politics through the lives of a remarkable father-daughter dynasty. The radical congressman William "Pig Iron" Kelley and his fiery, Progressive daughter Florence Kelley led lives packed with drama, intimately tied to their nation's politics. Through their friendships and feuds, campaigns and crusades, Will and Florie trace the narrative of a democracy in crisis. In telling the tale of what it cost to cool our republic, historian Jon Grinspan reveals our divisive political system's enduring capacity to reinvent itself.
