This book argues that Congress's process for making law is as corrosive to the nation as unchecked deficit spending. David Schoenbrod shows that Congress and the president, instead of making the laws that govern us, generally give bureaucrats the power to make laws through agency regulations. Our elected "lawmakers" then take credit for proclaiming popular but inconsistent statutory goals and later blame the inevitable burdens and disappointments on the unelected bureaucrats. The 1970 Clean Air Act, for example, gave the Environmental Protection Agency the impossible task of

making law that would satisfy both industry and environmentalists. Delegation allows Congress and the president to wield power by pressuring agency lawmakers in private, but shed responsibility by avoiding the need to personally support or oppose the laws, as they must in enacting laws themselves. Schoenbrod draws on his experience as an attorney with the Natural Resources Defense Council and on studies of how delegation actually works to show that this practice produces a regulatory system so cumbersome that it cannot provide the protection that people need, so large that it needlessly stifles the economy, and so complex that it keeps the voters from knowing whom to hold accountable for the consequences. Contending that delegation is unnecessary and unconstitutional, Schoenbrod has written the first book that shows how, as a practical matter, delegation can be stopped.

It has, improbably, been called uncommonly lucid, even riveting by *The New York Times*, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is *The 9/11 Commission Report*, which was, before its publication, perhaps one of the most

anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.

The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts.

This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.
