*2015 Handbook of Emergency Cardiovascular Care for Healthcare Providers* Lippincott Williams & Wilkins

The student workbook for the credentialed Heartsaver Pediatric First Aid course. Provides information on how to manage illness and injuries in a child during the first few minutes of an emergency until professional help arrives. Includes four core modules: First Aid Basics, Injuries and Illnesses, Life-Threatening Emergencies and the Chain of Survival, and CPR and AED. Also includes optional modules, such as Use of a Nebulizer, to meet regulations for day-care centers in certain states.

Workbook comes shrink-wrapped with the Heartsaver Pediatric First Aid Quick Reference Guide (#80-1002), the Adult CPR And AED Reminder Card, the Child And Infant CPR And AED Reminder Card, and a CD containing supplemental information and video clips on CPR and AED skills. An ideal resource for first responders, child-care workers, teachers, foster-care workers, camp counselors, youth organizations, coaches/Little League organizations, as well as parents, grandparents, and baby sitters. ACLS for Experienced Providers McGraw Hill Professional

The Washington Manual of Critical Care is a concise pocket manual for physicians and nurses. It is distinguished from the multitude of other critical care handbooks on the market by its consistent presentation of algorithms displaying the decision-making pathways used in evaluating and treating disorders in the ICU. The new edition transitions to a full color format and will include coverage of Deep Venous Thrombosis/Pulmonary Embolism, fetal-maternal critical care, C difficile infection, and alternative hemodynamic monitoring.

The Washington Manual of Critical Care Jones & Bartlett Learning  
Mastering ACLS, Second Edition will help health care professionals successfully complete the American Heart Association's Advanced Cardiac Life Support course and certification exam. This quick-review outline-format study guide covers the core knowledge and skills needed for ACLS—including detailed, illustrated life support techniques, core case studies, arrhythmias, defibrillation procedures, I.V. techniques, cardiovascular pharmacology, myocardial infarction, and special resuscitation situations. Now in full color, this edition features 200 illustrations and algorithms, expanded chapter quizzes, a comprehensive test, expanded information on automated external defibrillators, and additional case scenarios in the Megacode and other chapters. A new appendix reviews Basic Cardiac Life Support guidelines.

Written with elegance, warmth, and humor, this highly original "teaching memoir" by William Zinsser—renowned bestselling author of On Writing Well gives you the tools to organize and recover your past, and the confidence to believe in your life narrative. His method is to take you on a memoir of his own: 13 chapters in which he recalls dramatic, amusing, and often surprising moments in his long and varied life as a writer, editor, teacher, and traveler. Along the way, Zinsser pauses to explain the technical decisions he made as he wrote about his life. They are the same decisions you'll have to make as you write about your own life: matters of selection, condensation, focus, attitude, voice, and tone.
