## Updated CPR guidelines address physical and emotional ...

In 2010, the American Heart Association (AHA) released their 2010 Guidelines Highlights, which outlines the key changes regarding CPR procedures. The most prominent change was the rearranging of the order from A-B-C to C-A-B in the CPR sequence, emphasizing the chest compressions. The AHA's research concluded that the old approach creates an unnecessary delay in chest compressions.

About Guidelines & Statements. The American Heart Association and American Stroke Association publish medical guidelines and scientific statements on various cardiovascular disease and stroke topics. AHA/ASA volunteer scientists and healthcare professionals write the statements.

The American Heart Association (AHA) issued interim cardiopulmonary resuscitation (CPR) guidelines that apply during the COVID-19 pandemic. The AHA recommended bystanders and lay rescuers administer “ hands only ” CPR without mouth-to-mouth ventilation to limit exposures to the SARS-CoV-2 virus that causes COVID-19.
