Accompany American History: A Survey
McGraw-Hill Education

"No president since the founders has done more to shape the character of American government," notes Alan Brinkley in this magnificent biography of America's thirty-second president. "And no president since Lincoln has served through darker or more difficult times. Roosevelt thrived in crisis. It brought out his greatness, and his guile. It triggered his almost uncanny ability to communicate effectively with people of all kinds. And at times, it helped him excoriate his enemies, and to revel in doing so." This brilliant, compact biography chronicles Franklin Delano Roosevelt's rise from a childhood of privilege to a presidency that

forever changed the face of international diplomacy, the American party system, and the government's role in global and domestic policy. Brinkley, the National Book Award-winning New Deal historian, provides a clear, concise introduction to Roosevelt's sphinx-like character and remarkable achievements. In a vivid narrative packed with telling anecdotes, the book moves swiftly from Roosevelt's youth in upstate New York--characterized by an aristocratic lifestyle of trips to Europe and private tutoring--to his schooling at Harvard, his brief law career, and his initial entry into politics. From there, Brinkley chronicles Roosevelt's rise to the presidency, a position in which FDR remained until death, through an unparalleled three-plus terms in office. Throughout the book,

Brinkley elegantly blends FDR's personal life with his professional one, providing a lens into the President's struggles with polio and his somewhat distant relationship with the first lady. Franklin Delano Roosevelt led the United States through the worst economic crisis in the nation's history and through the greatest and most terrible war ever recorded. His extraordinary legacy remains alive in our own troubled new century as a reminder of what bravery and strong leadership can accomplish.

The Unfinished Nation: A Concise History of the American People
Volume 1 McGraw-Hill Humanities
Social
Highly-respected for its impeccable scholarship and elegant writing

style, American History: A Survey provides students and instructors with a comprehensive account of the American past in which no single approach or theme predominates. From its first edition, this text has included a scrupulous account of American political and diplomatic history. Today, however, the book explores areas of history such as social, cultural, urban, racial and ethnic history, more history of the West and South, environmental history, and the history of women and gender. In addition, American history has not evolved in a vacuum, but as part of a larger global world. The eleventh edition of this text

places American history into that global context, making connections for students who live in an ever-expanding world themselves.

The Unfinished Nation: A Concise History of the American People, Combined Hardcover McGraw-Hill Humanities, Social Sciences & World Languages

Study guide to the first volume of a survey of the history of the USA. Balancing the social and cultural issues with the political and diplomatic, the book includes historiographical debates, new attention to native American history and revised sections on women's history.

In a concise but wide-ranging narrative, Brinkley shows the diversity and complexity of the nation and our understanding of its history--one that continues to evolve both in the events of the present and in our reexamination of new evidence and perspectives on the past. This sixth edition features a new series of Patterns of Popular Culture essays, as well as expanded coverage of pre-Columbian America, new America in the World essays, and updated coverage of recent events and developments that demonstrates how a

new generation continues to shape the American story.

The Unfinished Nation McGraw-Hill Education

"The title 'The Unfinished Nation' is meant to suggest several things. It is a reminder of America's exceptional diversity of the degree to which, despite all the many efforts to build a single, uniform definition of the meaning of American nationhood, that meaning remains contested. It is a reference to the centrality of change in American history to the ways in which the nation has continually transformed itself and continues to do so in our own time. It is also a description of the writing of American history itself of the ways in which historians are engaged in a continuing, ever unfinished process of asking new

questions"--

more accessible resource for students. Also, every copy of the book will be shrinkwrapped with a free, handy study reference card!

American History McGraw-Hill Humanities, Social Sciences & World Languages

How did liberalism, the great political tradition that from the New Deal to the 1960s seemed to dominate American politics, fall from favor so far and so fast? In this history of liberalism since the 1930s, a distinguished historian offers an eloquent account of postwar liberalism, where it came from, where it has gone, and why. The book supplies a crucial chapter in the history of twentieth-century American politics as well as a valuable and clear perspective on the state of our nation's

politics today. *Liberalism and Its Discontents* moves from a penetrating interpretation of Franklin D. Roosevelt and the New Deal to an analysis of the profound and frequently corrosive economic, social, and cultural changes that have undermined the liberal tradition. The book moves beyond an examination of the internal weaknesses of liberalism and the broad social and economic forces it faced to consider the role of alternative political traditions in liberalism's downfall. What emerges is a picture of a dominant political tradition far less uniform and stable--and far more complex and contested--than has been argued. The author offers as well a masterly assessment of how some of the leading historians of the postwar era explained (or failed to explain) liberalism

and other political ideologies in the last half-century. He also makes clear how historical interpretation was itself a reflection of liberal assumptions that began to collapse more quickly and completely than almost any scholar could have imagined a generation ago. As both political history and a critique of that history, *Liberalism and Its Discontents*, based on extraordinary essays written over the last decade, leads to a new understanding of the shaping of modern America.

Liberalism and Its Discontents McGraw-Hill College

The Brewer Technology and Learning Center presents a directory of Internet resources related to the study and teaching of American history in grades K-12. The directory includes resources featuring online exhibits, colonial records, lesson plans, and more, as well as

information on such topics as the Civil War, the Revolutionary War, flappers, the Old West, and Native Americans.

American History: a Survey, Twelfth Edition McGraw-Hill Education

Few American historians of his generation have had as much influence in both the academic and popular realms as Alan Brinkley. His debut work, the National Book Award–winning *Voices of Protest*, launched a storied career that considered the full spectrum of American political life. His books give serious and original treatments of populist dissent, the role of mass media, the struggles of liberalism and conservatism, and the powers and limits of the presidency. A longtime professor at Harvard University and Columbia University, Brinkley has shaped the field of

U.S. history for generations of students through his textbooks and his mentorship of some of today's foremost historians. *Alan Brinkley: A Life in History* brings together essays on his major works and ideas, as well as personal reminiscences from leading historians and thinkers beyond the academy whom Brinkley collaborated with, befriended, and influenced. Among the luminaries in this volume are the critic Frank Rich, the journalists Jonathan Alter and Nicholas Lemann, the biographer A. Scott Berg, and the historians Eric Foner and Lizabeth Cohen. Together, the seventeen essays that form this book chronicle the life and thought of a working historian, the development of historical scholarship in our time, and the role that history plays in our public life. At a moment

when Americans are pondering the plight of their democracy, this volume offers a timely overview of a consummate student—and teacher—of the American political tradition.

**Brinkley, American History, AP Ed,
2023, 16e, Student Edition** McGraw-Hill/Glencoe

At a time when liberalism is in disarray, this vastly illuminating book locates the origins of its crisis. Those origins, says Alan Brinkley, are paradoxically situated during the second term of Franklin Delano Roosevelt, whose New Deal had made liberalism a fixture of American politics and society. The End of Reform shows how the liberalism of the early New Deal—which set

out to repair and, if necessary, restructure America's economy—gave way to its contemporary counterpart, which is less hostile to corporate capitalism and more solicitous of individual rights. Clearly and dramatically, Brinkley identifies the personalities and events responsible for this transformation while pointing to the broader trends in American society that made the politics of reform increasingly popular. It is both a major reinterpretation of the New Deal and a crucial map of the road to today's political landscape.

Perhaps never before has the writing of American history seemed so much an arena of diverse claims and discord. Scholars explore areas of the past that once seemed hidden

from view. Newly assertive groups in the American population draw attention to their own distinctive pasts. The "story" of America sometimes seems to be many different stories, with nothing to tie them together. In *The Unfinished Nation*, Alan Brinkley provides a clear and intelligent account of the American past that strikes a balance between the new diversity in scholarship and the narrative unity that any general history must have. He makes clear that one can incorporate the rich and varied experiences of America's many cultures into a coherent and compelling story and at the same time retain a sense of what ties Americans together as members of a perpetually troubled but remarkably successful nation. Beginning with the "discovery" by Europeans of a "New World" that was already the home of millions of people and highly developed civilizations, *The Unfinished Nation* chronicles the growth of new societies in

America and the survival and transformation of old ones. It traces the development of political ideas and political institutions in the American colonies and, later, in the American nation. It examines the emergence of a society divided into distinct regional cultures, each with a highly developed system of class relations, gender roles, and racial norms. It explores the great crisis of American nationalism in the mid-nineteenth century and the emergence of a more consolidated nation out of the Civil War and Reconstruction. And it describes the dazzling changes that industrialization and the rise to worldpower have brought in the twentieth century -- and the host of social and cultural transformations that have come with them. The Unfinished Nation offers anyone interested in American history a picture of how new scholarship has changed our understanding of our past. It also shows how, despite these important changes, the story of

America remains just that: a "story," made newly complicated perhaps, but no less remarkable and compelling for those complications.
