Perspectives Teacher Guide University of Michigan Press

In this course, which is the second part of a two-year study of U.S. History that begins in Grade 8, students will study the history of the United States since Reconstruction to the present. Historical content will focus on the political, economic, and social events and issues related to industrialization and

urbanization, major wars, domestic and foreign policies of the Cold War and post-Cold War eras, and reform movements including civil rights. Students will examine the impact of geographic factors on major events and analyze causes and effects of the Great Depression. Students will examine the impact of the constitutional issues on American society, evaluate the dynamic relationship of the three branches of the federal government, and analyze efforts to expand the democratic process. Students will describe the relationship between the arts and the times during which they were created. Students will analyze the impact of technological innovations on the American labor movement. Students will use critical-thinking skills to explain and

apply different methods that historians use to interpret the past, including points of view and historical context.

Undergraduate Study Firsthand Books Winner of the John H. Dunning Prize, American Historical Association Winner of the Stuart L. Bernath Book Prize, Society for Historians of American Foreign Relations Winner of the James H. Broussard Best First Book Prize, Society for Historians of the Early American Republic Winner of the North Jersey Civil War Round Table Book Award Finalist for the Harriet Tubman Prize, Lapidus Center for the Historical Analysis of Transatlantic Slavery When the United States emerged as a world power in the years before the Civil

War, the men who presided over the nation's triumphant territorial and economic expansion were largely southern slaveholders. As presidents, cabinet officers, and diplomats, slaveholding leaders controlled the main levers of foreign policy inside an increasingly powerful American state. This *Vast Southern Empire* explores the international vision and strategic operations of these southerners at the commanding heights of American politics. "At the close of the Civil War, more than Southern independence and the bones of the dead lay amid the smoking ruins of the Confederacy. Also lost was the memory of the prewar decades, when Southern politicians and pro-slavery ambitions shaped the foreign policy of the United States in order to protect slavery at home and advance its interests abroad. With *This Vast Southern Empire*, Matthew Karp recovers that forgotten history and presents it in fascinating and often surprising detail."
—Fergus Bordewich, *Wall Street Journal*
"Matthew Karp's illuminating book *This Vast Southern Empire* shows that the South was interested not only in gaining new slave territory but also in promoting slavery

throughout the Western Hemisphere."
—David S. Reynolds, *New York Review of Books*
Reading Like a Historian
Government Printing Office
Whether he is comparing how students and historians interpret documentary evidence or analyzing children's drawings, Wineburg's essays offer rough maps of how ordinary people think about the past and use it to understand the present. These essays acknowledge the role of collective memory in filtering what we learn in school and shaping our historical thinking.
Native Homelands along the Lewis & Clark Trail
New York : the Macmillan Company
John Irish and Barbara Ozuna, both experienced history teachers, have teamed up to develop this workbook to focus on the historical thinking skills that high school students in the AP* World History course must master in order to perform well on the exam.
The Shame of the Cities
Critical Perspectives on the P

A practical guide on how one professor employs the transformative changes of digital media in the research, writing, and teaching of history
Contemporary Voices along the Lewis & Clark Trail
Stanford University Press
The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of performance.
The Federalist Papers
Regional Learning Project
This two-volume study guide has approximately 1,700 questions: 1,400 multiple-choice and true/false questions (approximately 50 per chapter), and almost 300 essay questions (about 10 per chapter). The guide includes definitions of key terms and chapter review questions.
Slave Country
Oxford University Press
"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and

government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

George Vs. George Harvard University Press
The U.S. History course will lead students into a deeper understanding and appreciation of their country's post-Civil War history. The first unit is a refresher covering events from the European discovery of America until Reconstruction. Next, students will learn how industrialization and the railroads empowered the growth of America in late 19th century. Moving to the 20th century, students will explore the Progressive movement and America's emergence as a world power during World War I. Investigating the Great Depression and World War II will give students insight into their continuing influence on America today. Students will examine the Civil Rights movement, the Warren Court, and the impact of technology on the life of Americans. The course concludes with a survey of recent events under the George W. Bush and Barack Obama administrations.

Why Study History? Teachers College Press
Considering studying history at university?
Wondering whether a history degree will get you a good job, and what you might earn?
Want to know what it ' s actually like to study history at degree level? This book tells you what you need to know. Studying any subject at degree level is an investment in the future that involves significant cost. Now more than ever, students and their parents need to weigh up the potential benefits of university courses. That ' s where the Why Study series comes in. This series of books, aimed at students, parents and teachers, explains in practical terms the range and scope of an academic subject at university level and where it can lead in terms of careers or further study. Each book sets out to enthuse the reader about its subject and answer the crucial questions that a college prospectus does not.

The Complete Book of United States History Read Books Ltd

When President George Washington ordered an army of 13,000 men to march west in 1794 to crush a tax rebellion among frontier farmers, he established a range of precedents that continues to define federal

authority over localities today. The "Whiskey Rebellion" marked the first large-scale resistance to a law of the U.S. government under the Constitution. This classic confrontation between champions of liberty and defenders of order was long considered the most significant event in the first quarter-century of the new nation. Thomas P. Slaughter recaptures the historical drama and significance of this violent episode in which frontier West and cosmopolitan East battled over the meaning of the American Revolution. The book not only offers the broadest and most comprehensive account of the Whiskey Rebellion ever written, taking into account the political, social and intellectual contexts of the time, but also challenges conventional understandings of the Revolutionary era.

The American Yawp McGraw-Hill/Glencoe
This series of books is designed to help upper elementary teachers teach a rigorous yearlong writing curriculum.

Rothman explores how slavery flourished in a new nation dedicated to the principle of equality among free men, and reveals the

enormous consequences of U.S. expansion into the region that became the Deep South. Teaching History in the Digital Age Ingram NC State textbook adoption 1998-2003. Historical Thinking Skills Harvard University Press
Explores how the characters and lives of King George III of England and George Washington affected the progress and outcome of the American Revolution. Historical Thinking and Other Unnatural Acts W. W. Norton
Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.
Official Register of the Officers and Men of New Jersey in the Revolutionary War Macmillan Higher Education
The guiding theme of this unit is the recognition that people have their own perspectives based on their

experiences in the world around them. The literature selections of the unit will allow students the opportunity to view and study multiple perspectives. Students will reflect on their own perspectives as well as the perspectives of characters in and authors of classical literature.

students the tools they need to master the course and achieve success on the AP® exam. The Framework for Teaching Evaluation Instrument, 2013 Edition DigiCat
"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass
The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex

process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.
