This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers, building on current scholarship in the field, explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth-century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth- and twentieth-century planning, and environmental

justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each

time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

American Odyssey, a novel set in the not-too-distant future, is the chilling story of a totalitarian America that has plummeted to a nation set on world domination. The protagonist, Herb, is a young "everyman", a schoolteacher. He falls in love with a colleague who introduces him to the resistance movement. A series of personal misfortunes, including the death of his soldier twin, impel him to become a dedicated activist against the dictatorship. His group is soon exposed, and he and his love, Tony, become fugitives. She is soon killed. At that point Herb's odyssey begins as he travels the nation in search of "the movement". The preponderance of the novel reveals the state of the nation and of the

people. He comes into contact with a cross-section of the United States. They are men and women -- laborers, farmers, professionals, students..They are Black and white and Hispanic, and each is unique in the manner in which his/her life has been degraded under the dictatorship. At the beginning they are impoverished, fearful, dispirited. In time, as the economic crisis deepens and battlefield losses mount, there are changes in the populace. Apathy turns to anger and then to resistance. Herb becomes reconnected with the opposition to the dictatorship. The American people in large numbers, disheartened by the desperate quality of their lives, simply "opt-out" of the system. The military, too, appalled by the unending wars and bloodshed, also becomes disaffected. Millions converge upon Washington, D.C. the dictatorship falls, and the foundation is laid for the re-establishment of democracy in the United States.

The Progress of Colored Women: Three Civil Rights Speeches by the First Black Woman to Receive a College Education in the United States of America (H Pearson College Division) A new autobiographical work by one of the most original and controversial thinkers of our time. "I looked up every day from behind the bars to the Statue of Liberty in New York Harbor. Her light shone brightly into a dark night." With these words, Wilhelm Reich described his experience as

an "enemy alien" imprisoned on Ellis Island in the aftermath of the Japanese bombing of Pearl Harbor. American Odyssey, compiled from his correspondence and journals, chronicles Reich's first years in America. They were years of prodigious accomplishment in which he developed the orgone energy accumulator-the so-called orgone box; published his first books in English; made breakthroughs in his investigation of orgone energy in social pathology, physics, astronomy, and cancer; and interested none other than Albert Einstein in testing his theories. America brought a new marriage, a new son, a new group of students, and a new laboratory. But these were years of fierce struggle as well: the denial of an American medical license, the refusal of a patent on the orgone accumulator, and, finally, a slanderous article that would incite the Food and Drug Administration to the dogged attack on Reich that would continue until his death in another prison cell ten years later. American Odyssey reveals more than a period in the life of an embattled scientist. It discloses the social and intellectual life of a country in a tumultuous time in history.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853,

after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

African American history is the part of American history that looks at the past of African Americans or Black Americans. Of the 10.7 million Africans who were brought to the Americas until the 1860s, 450 thousand were shipped to what is now the United States. Most African Americans are descended from Africans who were brought directly from Africa to America and became slaves. The future slaves were originally captured in African wars or raids and transported in the Atlantic slave trade. Our collection includes the following works: Narrative Of The Life by Frederick Douglass. Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A

heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the

clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

The Emancipation Proclamation, widely remembered as the heroic act that ended slavery, in fact freed slaves only in states in the rebellious South. True emancipation was accomplished over a longer period and by several means. Essays by eight distinguished contributors consider aspects of the president's decision making, as well as events beyond Washington, offering new insights on the consequences and legacies of freedom, the engagement of black Americans in their liberation, and the issues of citizenship and rights that were not decided by Lincoln's document. The essays portray emancipation as a product of many hands, best understood by considering all the actors, the place, and the time. The contributors are William A. Blair, Richard Carwardine, Paul Finkelman, Louis Gerteis, Steven Hahn, Stephanie McCurry, Mark E. Neely Jr., Michael Vorenberg, and Karen Fisher Younger.
