Gertrude Stein and philosopher Alfred North Whitehead were unlikely friends who spent most of their mature lives in exile: Stein in France and Whitehead in the United States. Their friendship was based on a mutual admiration for the philosophical pragmatism of William James and skepticism toward the European tradition of intellectual abstraction extending as far back as Plato and Aristotle. Though neither was musical, both were leading exponents of a new orientation toward time and knowledge acquisition that would go on to influence succeeding generations of composers. Through Virgil Thomson, Stein came to influence John Cage and the New York school of abstract music; through his teaching in the United States, Whitehead's philosophy of time and cognition came to be seen in America and abroad as an alternative to Newtonian neoclassicism, an alternative clearly acknowledged in the metric modulations of Elliott Carter and Conlon Nancarrow as well as the post-1950 total serialism of Pierre Boulez and Karlheinz Stockhausen. The seemingly unlikely influence of Stein and Whitehead on Thomson, Cage, Carter, and the minimalists tells a remarkable story of transmission within and among the arts and philosophy, one that Robin Maconie unravels through his series of essays in *Avant Garde: An American Odyssey* from Gertrude Stein to Pierre Boulez. Maconie explores, from Hollywood to Harvard, the way in which music functions as a form of communication across the boundaries of language, serving the causes of trade and diplomacy through its representation of national identity, emotional character, honorable intention, and social discipline. The study of music as a language inevitably became the object of

information science after World War II, but, as Maconie notes, 60 years on, music's refusal to yield to scientific elucidation has generated a stream of anti-music propaganda by a powerful collective of celebrity science writers. In a sequence of linked essays, Stockhausen specialist Robin Maconie reconsiders the role of music and music technology through careful examination of key modern concepts with respect to time, existence, identity, and relationship as formulated by such thinkers as Einstein, Russell, Whitehead, and Stein, along with Freud, Schoenberg, Wittgenstein, and Marcel Duchamp. This foray into art, music, science, and philosophy is ideally suited for students and scholars of these disciplines, as well as those seeking to understand more deeply the influence these individuals had on one another's work and modern music.

Most leadership literature stems from and focuses on the private sector, emphasizing personal qualities that bind leaders and followers to a shared purpose. As the authors of *New Public Leadership* argue, if these shared purposes do not build trust and legitimacy in public institutions, such traditional leadership tropes fall short of the standard demanded by contemporary public servants.? For twenty years the authors have been developing a leadership education and training framework specifically designed to encourage public service professionals to 'lead from where they sit.' This book presents that comprehensive, integrated, and practical leadership framework, grounded in the uniqueness of public legal missions, culture, history and values. The authors explore three key elements of leadership success: 1) an understanding of our public service context, including the history, the values and the institutions that comprise our leadership setting, 2) a set of tools designed to help leaders initiate collective action in wicked challenge settings, and 3) tools to support sound judgment, enabling leaders to do the right thing in the right circumstances for the right reasons. The authors further provide readers with a basic understanding of democratic

institutions, encouraging them to work within and across multiple vertical and horizontal systems of authority. The book is organized into four sections, each of which is accompanied by a Master Case that provides the reader with an opportunity to apply the principles and leadership tools discussed in the text to practice. To further reinforce the practice-centered approach to leadership knowledge and skills, the authors have developed an accompanying EMERGE Leadership Handbook, complete with exercises, available online. Written specifically with the practicing public manager in mind, this book arms public servants with a large repertoire of leadership skills, designed to accommodate changing public values and conflicting priorities at all levels of our public organizations.

Books and Pamphlets, Including Serials and Contributions to Periodicals Scarecrow Press

The inspiring, true coming-of-age story of a ferociously determined young man who, armed only with his intellect and his willpower, fights his way out of despair. In 1993, Cedric Jennings was a bright and ferociously determined honor student at Ballou, a high school in one of Washington D.C.'s most dangerous neighborhoods, where the dropout rate was well into double digits and just 80 students out of more than 1,350 boasted an average of B or better. At Ballou, Cedric had almost no friends. He ate lunch in a classroom most days, plowing through the extra work he asked for, knowing that he was really competing with kids from other, harder schools. Cedric Jennings's driving ambition—which was fully supported by his forceful mother—was to attend a top college. In September 1995, after years of near superhuman dedication, he realized that ambition when he began as a freshman at Brown University. But he didn't leave his struggles behind. He found himself unprepared for college: he struggled to master classwork and fit in with the white upper-class students. Having traveled too far to turn back, Cedric was left to rely on his intelligence and his determination to maintain hope in the unseen—a future of acceptance and reward. In this updated edition, *A Hope in the Unseen* chronicles Cedric's odyssey during his last two years of high school, follows him through his difficult first year at Brown, and tells the story of his subsequent successes in college and the world of work. Eye-opening, sometimes humorous, and often deeply moving, *A Hope in the Unseen* weaves a crucial new thread into the rich and ongoing narrative of the American experience.

American Odyssey Crown

A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.

Turn Left at the Trojan Horse McGraw-Hill/Glencoe

“A wonderfully whimsical yet instructional view of Greco-Roman history.” —Kirkus Reviews In this thoroughly engaging book, Natalie Haynes brings her scholarship and wit to the most fascinating true stories of the ancient world. The *Ancient Guide to Modern Life* not only reveals the origins of our culture in areas including philosophy, politics, language, and art, it also draws illuminating connections between antiquity and our present time, to demonstrate that the Greeks and Romans were not so different from ourselves: Is Bart Simpson the successor to Aristophanes? Do the Beckhams have parallel lives with The Satiricon's Trimalchio? Along the way Haynes debunks myths (gladiators didn't salute the emperor before their deaths, and the last words of Julius Caesar weren't “et tu, brute?”). From Athens to Zeno's paradox, this irresistible guide shows how the history and wisdom of the ancient world can inform and enrich our lives today. “A romp through some of the best-known, and some of the more obscure, writers, thought, and stories of Greece and Rome.” —Times Literary Supplement

New Public Leadership Kensington Books

A biography of the United Nations mediator and winner of the 1950 Nobel Peace Prize for his work on the armistice between Israel and its Arab neighbors.

Resources in Education Dorrance Publishing

#1 NEW YORK TIMES BESTSELLER • In this brilliant biography, Pulitzer Prize – winning author Jon Meacham chronicles the life of George Herbert Walker Bush. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Time • NPR • St. Louis Post-Dispatch Drawing on President Bush's personal diaries, on the diaries of his wife, Barbara, and on extraordinary access to the forty-first president and his family, Meacham paints an intimate and surprising portrait of an intensely private man who led the nation through tumultuous times. From the Oval Office to Camp David, from his study in the private quarters of the White House to Air Force One, from the fall of the Berlin Wall to the first Gulf War to the end of Communism, *Destiny and Power* charts the thoughts, decisions, and emotions of a modern president who may have been the last of his kind. This is the human story of a man who was, like the nation he led, at once noble and flawed. His was one of the great American lives. Born into a loving, privileged, and competitive family, Bush joined the navy on his eighteenth birthday and at age twenty was shot down on a combat mission over the Pacific. He married young, started a family, and resisted pressure to go to Wall Street, striking out for the adventurous world of Texas oil. Over the course of three decades, Bush would rise from the chairmanship of his county Republican Party to serve as congressman, ambassador to the United Nations, head of the Republican National Committee, envoy to China, director of Central Intelligence, vice president under Ronald Reagan, and, finally, president of the United States. In retirement he became the first president since John Adams to see his son win the ultimate prize in American politics. With access not only to the Bush diaries but, through extensive interviews, to the former president himself, Meacham presents Bush's candid assessments of many of the critical figures of the age, ranging from Richard Nixon to Nancy Reagan; Mao to Mikhail Gorbachev; Dick Cheney to Donald Rumsfeld; Henry Kissinger to Bill Clinton. Here is high politics as it really is but as we rarely see it. From the Pacific to the presidency, *Destiny and Power* charts the vicissitudes of the life of this quietly compelling American original. Meacham sheds new light on the rise of the right wing in the Republican Party, a shift that signaled the beginning of the end of the center in American politics. *Destiny and Power* is an affecting portrait of a man who, driven by destiny and by duty, forever sought, ultimately, to put the country first. Praise for *Destiny and Power* “Should be required reading—if not for every presidential candidate, then for every president-elect.” —The Washington Post “Reflects the qualities of both subject and biographer: judicious, balanced, deliberative, with a deep appreciation of history and the personalities who shape it.” —The New York Times Book Review “A fascinating biography of the forty-first president.” —The Dallas Morning News

The Odyssey of Homer State University of New York Press

Since their composition almost 3,000 years ago the Homeric epics have lost none of their power to grip audiences and fire the imagination: with their stories of life and death, love and loss, war and peace they continue to speak to us at the deepest level about who we are across the span of generations. That being said, the world of Homer is in many ways distant from that in which we live today, with fundamental differences not only in language, social order, and religion, but in basic assumptions about the world and human nature. This volume offers a detailed yet accessible introduction to ancient Greek culture through the lens of Book One of the *Odyssey*, covering all of these aspects and more in a comprehensive Introduction designed to orient students in their studies of Greek literature and history. The full Greek text is included alongside a facing English translation which aims to reproduce as far as feasible the word order and sound play of the Greek original and is supplemented by a Glossary of Technical Terms and a full vocabulary keyed to the specific ways that words are used in *Odyssey I*. At the heart of the volume is a full-length line-by-line commentary, the first in English since the 1980s and updated to bring the latest scholarship to bear on the text: focusing on philological and linguistic issues, its close engagement with the original Greek yields insights that will be of use to scholars and advanced students as well as to those coming to the text for the first time.

Ralph Bunche An American Odyssey Legare Street Press

“ This quietly profound book belongs on the shelf next to Jon Krakauer ’ s Into the Wild. ” —The New York Times The riveting true story of Dick Conant, an American folk hero who, over the course of more than twenty years, canoed solo thousands of miles of American rivers—and then disappeared near the Outer Banks of North Carolina. This book “ contains everything: adventure, mystery, travelogue, and unforgettable characters ” (David Grann, best-selling author of Killers of the Flower Moon). For decades, Dick Conant paddled the rivers of America, covering the Mississippi, Yellowstone, Ohio, Hudson, as well as innumerable smaller tributaries. These solo excursions were epic feats of planning, perseverance, and physical courage. At the same time, Conant collected people wherever he went, creating a vast network of friends and acquaintances who would forever remember this brilliant and charming man even after a single meeting. Ben McGrath, a staff writer at The New Yorker, was one of those people. In 2014 he met Conant by chance just north of New York City as Conant paddled down the Hudson, headed for Florida. McGrath wrote a widely read article about their encounter, and when Conant's canoe washed up a few months later, without any sign of his body, McGrath set out to find the people whose lives Conant had touched—to capture a remarkable life lived far outside the staid confines of modern existence. Riverman is a moving portrait of a complex and fascinating man who was as troubled as he was charismatic, who struggled with mental illness and self-doubt, and was ultimately unable to fashion a stable life for himself; who traveled alone and yet thrived on connection and brought countless people together in his wake. It is also a portrait of an America we rarely see: a nation of unconventional characters, small river towns, and long-forgotten waterways.

Riverman Oxford University Press, USA

Photographs of Western Scenes add significance to excerpts from the journals of Lewis and Clark Expedition, 1804-1806.

American Odyssey Random House Trade Paperbacks

For one/two-semester, undergraduate courses in African-American History, African-American Studies, and United States History. The Odyssey recounts the adventures of Odysseus on his way home to Ithaca after the Trojan War.

American Odyssey Biblio & Tannen Publishers

Reinhold Niebuhr and John Dewey frequently have been identified as the most influential American philosophers of their respective times. Although their direct contact in print and in political action was marginal, their substantive conflict over such issues as religion, naturalism, the liberal tradition, and democracy both reflected and shaped much of America's inner dialogue from 1932 to mid-century and beyond. In this intriguing book, Daniel Rice makes a strong case that, although the clash between Niebuhr and Dewey was real and important, in a wider context the two shared more insights than either realized.

The African-American Odyssey: Since 1865 National Geographic Books Lonesome George is a comic odyssey that combines travel adventure and comedy in a journey of epic proportions. Author Jorge Sotirios illuminates the beauty of the South American landscape, interweaving its history, culture and people, in his mock heroic quest. Beginning with the writer lured to South America by an Argentine beauty, his journey commences across the equator, through the Amazon jungle and climaxes in the austere Galapagos Islands. Incorporating angels in Argentina to sham Peruvian shaman. From Amazombies appearing on midnight boats, to visiting the lost city of Fordlandia. Accompanying ecowarriors to far -flung villages where jaguars roam, the writer ultimately finds the site of the legendary Amazon warrior women, gliding over the Mirror of the Moon Lake where everything is doubled. The alluring pink dolphin in the Amazon River, said to charm whoever encounters it, is a constant presence. Missionaries and Tarzans coexist with the cult of Che Guevara, with serious topics such as oil exploitation, deforestation and drought. Lonesome George is South America as seen from street and river level and a life- affirming portrayal of people and human emotion as Sotirios' confronts his doppelganger, "Lonesome George", the last surviving tortoise of his species.

American Odyssey Series Prentice Hall

A modern-day Odysseus, Herzog plunges into a solo cross-country search for insight. With middle age bearing down on him, he takes stock: How has he measured up to his own youthful aspirations? In contemporary America, what is a life well lived? What is a heroic life?

Homer's Odyssey 9-12 Geoffrey Steadman

For those of us who know and love the incomparable Odyssey of Homer (and there are many), Dr. Hexter has created a valuable, detailed analysis, taking into account many of Homer's most fascinating subtleties.
