Generation Anew John Wiley & Sons

Anthology of about 600 poems from more than 200 twentieth century English poets.

The First Book Library of America: The American Has poetry lost its relevance in the postmodern age, unable to keep pace with other forms of cultural production such as film, mass media, and the Internet? Quite the contrary, argues Jill Kuhnheim in this pathfinding book, which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time. Using a variety of interdisciplinary approaches, Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images; grapples with issues of ethnic, national, sexual, and urban identities; and incorporates rather than rejects technological innovations and elements from the mass media. Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy, modernization, immigration, globalization, economic shifts toward neoliberalism and informal economies, urbanization, and the technological revolution have been expressed in—and even changed the very form of—Spanish American poetry since the 1970s.

Poetry: The Nineteenth Century Columbia University Press

One of America's leading poets and critics offers a major interpretation of the poetry and poets of modern America, from the radical bohemians at the turn of the century through the leftist poets of the twenties, the reactionaries of the thirties and forties, the gradual emergence of the San Francisco school after the Second World War, to the more recent poetry of Allen Ginsberg, Philip Whalen, Gary Snyder. It is a work of re-experiencing the poems themselves, and in the process Kenneth Rexroth provides a controversial new look at the standard authors and boldly redefines the value of such poets as Levertov, Moore, and Lowell. This new paperback edition has been supplemented by a complete index of poets and a list of suggested readings. --back cover.

Poems Containing History: Twentieth-Century American Poetry's Engagement with the Past, by Gary Grieve-Carlson, argues that twentieth-century American poetry has "contained" and helped its readers to think about history in a variety of provocative and powerful ways. Tracing the discussion of the relationship between poetry and history from Aristotle's Poetics to Norman Mailer's The Armies of the Night and Hayden White's Metahistory, the book shows that

even as history evolves into a professional, academic discipline in the late nineteenth century, and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects, twentieth-century American poets continue to take history as the subject of their major poems.
