Proceedings of the American Electric Railway Engineering Association ...

Containing a Complete Report of the ... Annual Convention, Held at Legare Street Press

Excerpt from Proceedings of the American Railway Engineering Association, Vol. 77 The paper contains a discussion of principles and criteria for the design of a railroad track test facility. One such facility is to be built and Operated by the Federal Railroad Administration (f ra). The purpose of the tests to be conducted is to support the various track research programs which aim to improve the design as well as the maintenance procedures and safety of railroad tracks.
