early American bicycle industry focuses on the crucial period from 1876 to the beginning of World War I. It looks particularly at the life and career of the industry's most significant personality during this era, Albert Augustus Pope. After becoming enamored with English high-wheeled bicycles during a visit to the Philadelphia World's Fair in 1876, Pope soon started paying Hartford, Connecticut's Weed Sewing Machine Company to make his own brand of high-wheeler, the "Columbia," the first to be manufactured in America in significant numbers. A decade later, Pope bought out that company, and ten years after that, Hartford's Park River was lined with five of Pope's factories. This book tells the story of the Pope Manufacturing Company's meteoric rise and fall and the growth of an industry around it.

It looks for America in the best of recent historical crowded slave cabins, bustling scholarship and provides a jumping-off point for discussions in the markets, congested tenements, and U.S. history classroom and beyond. marbled halls. It navigates between Long before Whitman and long after, maternity wards, prisons, streets, Americans have sung something bars, and boardrooms. The fully collectively amid the deafening peer-reviewed edition of The roar of their many individual American Yawp will be available in voices. The Yawp highlights the two print volumes designed for the U.S. history survey. Volume I

begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

It is impossible to understand America without understanding the history of African Americans. In nearly seven hundred entries, the Encyclopedia of African American History, 1619-1895 documents the full range of the African American experience during that period - from the arrival of the first slave ship to the death of Frederick Douglass - and shows how all aspects of American culture, history, and national identity have been profoundly influenced

by the experience of African Americans. The Encyclopedia covers an extraordinary range of subjects. Major topics such as "Abolitionism," "Black Nationalism," the "Civil War," the "Dred Scott case," "Reconstruction," "Slave Rebellions and Insurrections," the "Underground Railroad," and "Voting Rights" are given the in-depth treatment one would expect. But the encyclopedia also contains hundreds of fascinating entries on less obvious subjects, such as the "African Grove Theatre," "Black Seafarers," "Buffalo Soldiers," the "Catholic Church and African Americans," "Cemeteries and Burials," "Gender," "Midwifery," "New York African Free Schools," "Oratory and Verbal Arts," "Religion and Slavery," the "Secret Six," and much more. In addition, the Encyclopedia offers brief biographies of important African Americans - as well as white Americans who have played a significant role in African American history - from Crispus Attucks, John Brown, and Henry Ward Beecher to Olaudah Equiano, Frederick Douglass, Sarah Grimke, Sojourner Truth, Nat Turner, Phillis Wheatley, and many others. All of the Encyclopedia's alphabetically

arranged entries are accessibly written and free of jargon and technical terms. To facilitate ease of use, many composite entries gather similar topics under one headword. The entry for Slave Narratives, for example, includes three subentries: The Slave Narrative in America from the Colonial Period to the Civil War, Interpreting Slave Narratives, and African and British Slave Narratives. A headnote detailing the various subentries introduces each composite entry. Selective bibliographies and cross-references appear at the end of each article to direct

readers to related articles within the Encyclopedia and to primary sources and scholarly works beyond it. A topical outline, chronology of major events, nearly 300 black and white illustrations, and comprehensive index further enhance the work's usefulness. *Spectator [Philadelphia]*. An *American Review of Insurance* America's past is full of politics as well as personal stories. That's why Conlin's THE AMERICAN PAST: A SURVEY OF AMERICAN HISTORY teaches history the way it happened: real people with real stories. Through short narratives from

political figures' lives, you'll discover how our nation grew from a colonial project to an international superpower. Along the way, you'll find the human dimension emphasized with the stories of men and women of different regional, socioeconomic, and ethnic backgrounds described in colorful detail. This rich cultural history of African Americans outlines their travails, triumphs, and achievements in negotiating individual and collective identities to overcome racism, slavery, and the legacies of these injustices from colonial times to the present. One of every five Americans at the nation's beginning was an African American—a fact that underscores their importance in U.S. growth and development. This fascinating study moves

from Africans' early contacts with the Americas to African Americans' 21st-century presence, exploring their role in building the American nation and in constructing their own identities, communities, and cultures. Historian and lawyer Thomas J. Davis's multi-themed narrative of compelling content provides a historical overview of the rise of African Americans from slavery and segregation in their anti-racist quest to enjoy equal rights and opportunities to reach the American Dream of pursuing happiness. The work features portraits of individuals and treats images of

African Americans in their roles as performers, producers, consumers, and creators, and as the face of social problems such as crime, education, and poverty.
